A Novel

Nora Roberts

The #1 New York Times bestselling author's new novel, a tale of family tragedy, healing love, and unnerving suspense.

Adrian Rizzo was seven when she met her father for the first time. That was the day he nearly killed her—before her mother, Lina, stepped in. Afterward, Adrian was dropped off at her grandparents’ house in Maryland, where she spent the summer, made a new best friend, and developed her first crush—while Lina left to promote her popular fitness brand. There was no point in dwelling on the past.

A decade later, Adrian has created her own line of yoga and workout videos, following in Lina’s successful footsteps. When she starts getting death threats, Lina dismisses them as a routine part of celebrity. Year after year, they arrive—the postmarks changing, but the menacing tone the same. They continue as she returns to Maryland and becomes reacquainted with Raylan, her childhood crush. Sometimes it seems like they are indeed routine, nothing to worry about. Until the murders start, and the escalation begins…

The Newcomer

A Novel

Mary Kay Andrews

The New York Times bestselling author and Queen of the Beach Reads delivers her next page-turner for the summer.

Letty Carnahan is in trouble. She’s on the run from New York City; she has her four-year-old niece, Maya in tow, and her sister was found dead in the entry hall of her glamorous townhome. Letty believes she knows who did it: her sister’s awful, money-grubbing ex-husband, Eli Wingfield.

Letty can't forget her sister Tara's insistence: "if anything bad ever happens to me—it's Eli. Promise me you'll take Maya and run. Promise me." But run where? The only clue Tara has left behind is a faded magazine story about a sleepy mom-and-pop motel on Florida's Gulf Coast. Certain that the police and Tara's ex are hot on her trail, Letty leaves her own life behind without a backwards glance, knowing she will somehow get justice for Tara, and sets out for her destination—The Murmuring Surf.

The Surf, as regulars call it, is the winter home of a close-knit but quarrelsome group of retirees and snowbirds who regard this newcomer and her adorable niece with suspicion and more than a little curiosity. There's a No Vacancy sign swinging from the neon motel marquee, but the motel's longtime owner Ava DeCurtis takes Letty in, offers her a room and eventually a job, much to the disapproval of Ava's cynical son Joe, a local police detective whose every instinct tells him that Letty is a dangerous fugitive, possibly even a kidnapper and murderer.

As Letty tries to settle into her new life and help heal Maya's trauma, she's preoccupied as her late sister...

The Safety Trap

A Security Expert's Secrets for Staying Safe in a Dangerous World

Spencer Coursen

We are never in more danger than when we feel safe. The Safety Trap replaces that false sense of security and complacency with a plan of action to remain safe in any situation.

The Safety Trap teaches everyone how to protect themselves, their families, and those around them by being aware of realistic risks and—most importantly—being prepared for them. Surprisingly, you are actually in the most danger when you feel the safe. Simply put, feeling safe is the most dangerous thing you can do.

Author Spencer Coursen is one of the world's leading experts on security and has protected some of the biggest celebrities, business executives and professional athletes. Real world lessons from the author's career include:

“The Athlete” — A star athlete stirs a media frenzy both on and off the court. When the boundaries separating work, family, and friendships become blurred lines, it’s hard to keep secrets... secret. Lesson: Trust but verify.

“The Diplomat” — Diplomats do most of their work overseas, often in non-permissive environments. When a situation is about to go from bad to worse, it helps to have as much of a head start as possible. Lesson: The need for protective intelligence.

“The Politician” — When you campaign in poetry but govern in prose, one of the most dangerous things a politician can hear is, “I used to be your biggest fan.” Lesson: Identifying those who pose a threat vs those who express a threat.

These lessons and many more provide readers with the survival strategies they'll need during these dangerous times.

Madam

A Novel

Phoebe Wynne

A riveting, modern gothic debut with shades of The Secret History, The Stepford Wives, and a dash of Circe, set at a secretive all girls’ boarding school perched on a craggy Scottish peninsula.

Let the fire burn...

For 150 years, high above rocky Scottish cliffs, Caldonbrae Hall has sat untouched, a beacon of excellence in an old ancestral castle. A boarding school for girls, it promises that the young women lucky enough to be admitted will emerge “resilient and ready to serve society.”

Into its illustrious midst steps Rose Christie: a 26-year-old Classics teacher, Caldonbrae’s new head of the department, and the first hire for the school in over a decade. At first, Rose is overwhelmed to be invited into this institution, whose prestige is unrivaled. But she quickly discovers that behind the school’s elitist veneer lies an impenetrable, starkly traditional culture that she struggles to reconcile with her modernist beliefs—not to mention her commitment to educating “girls for the future.”

It also doesn’t take long for Rose to suspect that there’s more to the secret circumstances surrounding the abrupt departure of her predecessor—a woman whose ghost lingers everywhere—than anyone is willing to let on. In her search for this mysterious former teacher, Rose instead uncovers the darkness that beats at the heart of Caldonbrae, forcing her to confront the true extent of the school’s nefarious purpose, and her own role in perpetuating it.

A darkly feminist tale pitched against a haunting backdrop, and populated by an electrifying cast of heroines, Madam will keep readers engrossed until the breathtaking conclusion.

PHOEBE WYNNE worked in education for eight years, teaching Classics in the UK and English Language and Literature in Paris. She is both British and French, and currently spends her time between France and England. Madam is her first novel.

The Nine

The True Story of a Band of Women Who Survived the Worst of Nazi Germany

Gwen Strauss

The gripping, previously untold WWII story of nine female resistance fighters who banded together to survive the camps and ultimately escaped from a final death march across war-torn Germany

At the end of WWII, Gwen Strauss’ great aunt Helene Podliasky led a band of nine female resistance fighters as they escaped the SS and made their way through war-torn Germany. Drawing on their various strengths—diplomacy, humor, courage—they made it across the front lines against all odds and eventually back to Paris.

The women were all under thirty when they joined the resistance. They smuggled arms, harbored parachuting agents, trekked escape routes to Spain and hid Jewish children. They were arrested by French police, interrogated and tortured by the Gestapo, and deported to Germany. The group met at different points, in prison, in transit, and at Ravensbrück. By the time they were enslaved at the labor camp in Leipzig, they were a close-knit group of friends. During the final days of the war, the nine chose their moment and made a daring escape.

Drawing on incredible research, this powerful, heart-stopping narrative is a moving tribute to the power of humanity and friendship in the darkest of times.

Digital Body Language

How to Build Trust and Connection, No Matter the Distance

Erica Dhawan

From the author of Get Big Things Done, a book that decodes digital body language and offers solutions to optimize workplace communication.

The email reply that shows up a week later. The ambiguous text-message. The ellipsis that seemingly has no meaning. Is it any wonder workplace communication takes us so much time and effort to figure out, and that we’ve lost our innate human capacity to build trust and connection with our colleagues?

In Digital Body Language, consultant and researcher Erica Dhawan sheds light on why the conversations we have at work are marked by misunderstanding, suspicion, and fear. The signals and cues of empathy we’ve traditionally relied on through body language have been subsumed by the latest technologies. Today, empathy relies less on what we say than on how we say it—and very few people understand the how, whether they’re emailing, texting, or using any of the numerous communications platforms workplaces rely on. In a world marked by swift, speedy exchanges, how can we re-learn how to establish genuine trust, support, and motivation?

Digital Body Language is a guide to decoding the cues of digital communication that allow us to convey greater understanding and emotion on the job. Fluency is the basis for workplaces founded on trust. She takes readers across industries and investigates a wide array of exchanges—from large conferences and team meetings to daily emails, IMs, and conference calls—and offers insights and solutions to reinvigorate workplaces with clarity, engagement, and empathy.

Insanity Defense

Seven National Security Crises and How to Fix the Endless Cycle of Failure

Jane Harman

An insider’s account of America's ineffectual approach to some of the hardest defense and intelligence issues in the three decades since the Cold War ended

Insanity can be defined as doing the same thing over and over again but expecting a different result. As a nation, America has cycled through the same defense and intelligence issues since the end of the Cold War. In Insanity Defense, Congresswoman Jane Harman chronicles how four administrations have failed to confront some of the toughest national security policy issues and suggests achievable fixes that can move us toward a safer future.

The reasons for these inadequacies are varied and complex, in some cases going back generations. American leaders didn’t realize soon enough that the institutions and habits formed during the Cold War were no longer effective in an increasingly multi-power world transformed by digital technology and riven by ethno-sectarian conflict. Nations freed from the fear of the Soviets no longer deferred to America as before. Yet the United States settled into a comfortable, at times arrogant, position as the lone superpower. At the same time our governing institutions, which had stayed resilient, however imperfectly, through multiple crises, began their own unraveling.

Congresswoman Harman was there—as witness, legislator, exhorter, enabler, dissident and, eventually, outside advisor and commentator. Insanity Defense is an insider’s account of decades of American national security—of its failures and omissions—and a roadmap to making significant progress on solving these perennially difficult issues.

“Jane Harman has witnessed the most difficult national security challenges of the post-9/11 era, both inside and outside Congress. She has a unique vantage point and is an important voice in U.S. national security policymaking, both in critiquing our slowness in identifying and adapting to new threats a..."
In this one-step-ahead-of-the-headlines thriller, a reporter races to uncover a conspiracy when he learns that the post-Trump president elected to heal the nation has more sinister plans.

In a post-Trump world, a relatively unknown candidate, Ian Wrightman, is elected president to heal a nation frayed by years of extreme partisanship. When a series of coordinated terrorist attacks rock the United States, Wrightman begins to take more and more executive control in the name of protecting democracy.

But DC reporter and war veteran Rollie Stone uncovers evidence that the attacks might be coming from somewhere much closer to home. As Wrightman's executive orders turn to declarations of war and restriction of rights, Rollie is forced on the run as he tries to get the information into the right hands. But who can he trust?

In this all-too-realistic thriller inspired by the Sinclair Lewis classic, *It Can't Happen Here*, one journalist will do whatever it takes to stop his country turning from democracy to dictatorship.

Justice Is Coming
How Progressives Are Going to Take Over the Country and America Is Going to Love It

Cenk Uygur

A manifesto that outlines the progressive vision, history and worldview—by the founder of The Young Turks.

Right now, the shelves are filled with books on Donald Trump, as if everything was just hunky dory before the orange monster took over. Well, it wasn’t. What ails America goes far beyond Trump, but don't worry—progressives are going to take over the country and America is going to love it. In fact, we already have—but Washington just won't admit that fact.

In Justice Is Coming, The Young Turks founder Cenk Uygur presents two central ideas that counter everything we hear from pundits and politicians on a daily basis: one, progressives are correct on all of the issues, and two, America is actually a very progressive country. Millions of us know that we are not isolated individuals—we are a part of something larger, a movement that is already transforming Washington.

This compulsively readable manifesto seeks to apply the momentum we have already built to a concrete progressive agenda that activists, voters, and citizens can all rally around. It looks beyond Trump to the larger historical forces that have given us this unique political moment, and explains why we should fight, how we should fight, and how we can—and will—win.

Look out, Washington. We are building an army. This book is our battle plan.

CENK UYGUR is the host, founder and CEO of The Young Turks, the largest online news show in the world. He co-founded the Justice Democrats, a political action committee that has helped launch the careers of several major progressive politicians. He was previously the host of MSNBC "Live," and has appeared as a commentator on CNN, ABC News, NPR, Headline News, Al Jazeera, and Fox, among others. He graduated from the Wharton School of Business at University of Pennsylvania and Columbia Law School.
Ethel Rosenberg
An American Tragedy

Anne Sebba

New York Times bestselling author Anne Sebba’s moving biography of Ethel Rosenberg, the wife and mother whose execution for espionage-related crimes defined the Cold War and horrified the world.

In June 1953, Julius and Ethel Rosenberg, a couple with two young sons, were led separately from their prison cells on Death Row and electrocuted moments apart. Both had been convicted of conspiracy to commit espionage for the Soviet Union, despite the fact that the US government was aware that the evidence against Ethel was shaky at best and based solely on the perjury of her own brother.

This book is the first to focus on one half of that couple. Ethel was a bright girl who might have fulfilled her personal dream of becoming an opera singer, but instead found herself struggling with the social mores of the 1950’s. She longed to be a good wife and perfect mother to her two small boys, while battling the political paranoia of the McCarthy era, anti-Semitism and misogyny. Because of her profound love for and loyalty to her husband, she refused to incriminate him, despite the government’s pressure to do so. Instead, she courageously faced the death penalty for a crime she hadn’t committed, orphaning her two young sons.

Seventy years after her trial, this is the first time Ethel’s story has been told with the full use of the dramatic and tragic prison letters she exchanged with her husband, her lawyer and her psychotherapist over a three-year period, two of them in solitary confinement. Hers is the resonant story of what happens when a government motivated by fear tramples on the rights of its citizens.

Wanting
The Power of Mimetic Desire in Everyday Life
Luke Burgis

A groundbreaking exploration of why we want what we want, and a toolkit for freeing ourselves from chasing unfulfilling desires

As an undergraduate studying philosophy at Stanford, Peter Thiel met French polymath René Girard and was introduced to his theory of “mimetic desire”—the idea that most human wanting comes from imitating what other people desire, rather than from an innate sense of need. Inducted into the Académie Française as the “Darwin of the social sciences,” Girard is largely unknown outside academic circles. But because of Girard, Thiel knew that Facebook would thrive because it offered a window into people’s curated presentation of the best parts of their lives, thereby satisfying our need to look for “models” who tell us what to desire.

According to Girard, each of us is surrounded by people who generate, shape, and manipulate our desires at every turn. Mimetic desire is no mere tool of advertisers but a reality that affects our daily lives in romance, work, fitness, politics, and parenting. Mimetic desire is a secret, unacknowledged, sophisticated form of adult imitation that drives a larger degree of human behavior than anybody ever realized.

The consequences of mimetic desire are startling. Because people learn to want what other people want, they are easily drawn into rivalries and conflict. According to Girard, people don’t fight because they want different things; they fight because, though mimetic desire, they start to want the same things. But mimetic desire does not have to be in control. We are free to choose. And those who u...

Haven Point

A Novel

Virginia Hume

A sweeping debut novel about the generations of a family that spends summers in a seaside enclave on Maine's rocky coastline, for fans of Elin Hilderbrand, Beatriz Williams, and Sarah Blake.

In 1944, Maren Larsen is a blonde beauty from a small Minnesota farming town, determined to do her part to help the war effort—and to see the world beyond her family's cornfields. As a cadet nurse at Walter Reed Medical Center, she's swept off her feet by Dr. Oliver Demarest, a handsome Boston Brahmin whose family spends summers in an insular community on the rocky coast of Maine.

Maren soon discovers that the residents of Haven Point are skeptical of newcomers, and their quick wartime marriage raises eyebrows. Although the chilly reception gives her pause, Maren can't deny the charm of the old house on the cliff, and she vows to make Oliver's family her own.

But during the summer of 1970, tragedy strikes otherwise idyllic Haven Point—and in the aftermath, Oliver and Maren's seventeen-year-old daughter, Annie, vows never to return.

Nearly fifty years later, Maren’s granddaughter, Skye, has arrived in Maine to help scatter Annie’s ashes. Maren knows that Skye inherited her mother’s view of Haven Point, and that she finds the place—and the people—snobbish and petty. But she also knows that Annie never told her daughter the whole truth about what happened that fateful summer.

Over seven decades of a changing America, through wars and storms, betrayals and reconciliations, Haven Point explores what it means to belong to a place, and to a family, which holds as tight to its traditions as it does its secrets.

A Letter to My White Male Friends

Dax-Devlon Ross

A book targeting the millions of middle-aged white men who are suddenly awakening to race and racism.

Finally, white men are realizing that simply not being racist isn’t enough to end racism. These men want deeper insight not only into how racism has harmed Black people, but, for the first time, into how it has harmed them. They are beginning to see that racism warps us all. A Letter to My White Male Friends promises to help the millions of white men who have said they are committed to change and develop the capacity to see, feel and sustain that commitment so they can help secure racial justice for us all.

In part 1, Dax-Devlon Ross helps readers understand what it meant to be America’s first generation raised after the civil rights era. He explains how we were all educated with colorblind narratives and symbols that typically, albeit implicitly, privileged whiteness and denigrated Blackness. He provides the context and color of his own experiences in white schools so that white men can revisit moments in their lives where racism was in the room even when they didn’t see it enter.

In part 2, Ross shows how learning to see the harm that racism did to him, and forgiving himself, gave him the empathy to see the harm it does to white people as well.

In part 3, he offers white men direction so that they can take just action in their workplace, community, family, and, most importantly, in themselves, especially in the future when race is no longer in the spotlight.

A Novel of the Roman Empire

Steven Saylor

Following his international bestsellers Roma and Empire, Saylor continues his saga of the greatest, most storied empire in history from the eternal city at the very center of it

A.D. 165: The empire of Rome has reached its pinnacle. Pax Roma reigns from Britannia to Egypt, from Gaul to Greece. Emperor Marcus Aurelius oversees a golden age and the ancient Pinarius family of artisans embellish the greatest city on Earth with gilded statues and towering marble monuments. But history does not stand still. The years to come bring wars, plagues, fires, and famines. The best emperors in history are succeeded by some of the worst. Barbarians descend, eventually appearing before the gates of Rome itself. Chaos engulfs the empire.

Through it all, the Pinarius family endures, thanks in no small part to the fascinum, a protective talisman older than Rome itself, handed down through countless generations.

But on the fringes of society, a band of troublesome cultists disseminate dangerous and seditious ideas. They call themselves Christians. Some emperors deal with the Christians with toleration, others with bloody persecution. Then one emperor does the unthinkable. He becomes a Christian himself and the revolution he sets in motion will change the world forever.

Spanning 160 years and seven generations, teeming with some of ancient Rome’s most vivid figures, Saylor’s epic brings to vivid life some of the most tumultuous and consequential chapters of human history, events which reverberate still.

Why College Admissions Is Rigged and How You Can Beat the System

Susan F. Paterno

Director of the Chapman journalism program and mother of four recent college grads, Paterno leads you through the admissions process to help you and your family make the best decision possible.

The genius of Sue Paterno’s book is its smart assessment of the two poles of the college admissions process—the big picture and the nitty gritty forms-and-scores-and-disclosures pole. She’s a lifelong academic who knows what it takes to get the best candidates enrolled in her institution, and also a mom who has had to help navigate four very different kids’ applications to a wide swath of colleges and to pay for those four-year schools on a finite budget.

Readers will learn how to use a sorting hat of their own devising—narrowing your focus, knowing how the sausage gets made, and how to find a good financial fit before considering anything else, including geography and reputation (and, certainly, ranking).

Among the tools and insights Paterno offers:
- How to read beyond the rack rate for tuition, room, and board
- How to negotiate your financial package once it's offered
- The difference between family debt and student debt and how to split it
- How to make the fact that schools select their admits with a blend of 90% logic and 10% emotion work for you

Is the college admissions game really stacked against you? Is it getting tougher to get into top schools—into any school—or not? How will COVID-19 change all of these things? Paterno answers these pressing issues and many more.

SUSAN F. PATERNO is the director of the journalism program at Chapman University in Orange, CA and an award-winning journalist with more than twenty years' experience as a reporter, writer and columnist. A senior writer for “American Journalism Review,” Paterno has also written for the LA Times, the New York Times, U.S. News & World Report, and many others. She has collaborated on a half dozen books, including The Newswriters Handbook and Talk Straight, Listen Carefully with M.L. Stein.
The Hitler Years: Triumph, 1933-1939

Frank McDonough

The first volume of a new chronicle of the Third Reich under Hitler's hand, ending on Germany's comprehensive military defeat of Poland in 1939

On January 30th, 1933, Adolf Hitler was appointed the German Chancellor of a coalition government by President Hindenburg. Within a few months he had installed a dictatorship, jailing and killing his leftwing opponents, terrorizing the rest of the population and driving Jews out of public life. He embarked on a crash program of militaristic Keynesianism, reviving the economy and achieving full employment through massive public works, vast armaments spending and the cancellations of foreign debts. After the grim years of the Great Depression, Germany seemed to have been reborn as a brutal and determined European power.

Over the course of the years from 1933 to 1939, Hitler won over most of the population to his vision of a renewed Reich. In these years of domestic triumph, cunning maneuvers, pitting neighboring powers against each other and biding his time, we see Hitler preparing for the moment that would realize his ambition. But what drove Hitler's success was also to be the fatal flaw of his regime: a relentless belief in war as the motor of greatness, a dream of vast conquests in Eastern Europe and an astonishingly fanatical racism.

In The Hitler Years, Frank McDonough charts the rise and fall of the Third Reich under Hitler's hand. The first volume, Triumph, ends after Germany's comprehensive military defeat of Poland in 1939.

PRAISE

**Long Train Runnin’**

*Our Story of the Doobie Brothers*

Tom Johnston and Pat Simmons with Chris Epting

For the first time, the incredible true story of the legendary band, The Doobie Brothers, written by the founding members.

Only a very few rock bands that have had the longevity, success, and drama of The Doobie Brothers. Born out of late 1960s NoCal, they stood alongside their contemporaries The Grateful Dead, The Allman Brothers, and many others as an iconic American rock band. The train was rolling along, hits were flowing like wine, and arenas were packed with fans who wanted to see them live... then Tom Johnston, the band’s front man and lead guitarist, almost died.

The Doobies’ train came to a screeching halt. All of a sudden the band started contemplating the end of the road only seven years into their career, just as things were taking off.

This was actually far from the end. A soul-steeped backup singer for Steely Dan named Michael McDonald took a shot at singing some of the Doobies’ songs on tour, and all of a sudden a new chapter in the Doobie Brothers’ story began. The band changed their sound and had numerous number one hits with their new front man. Tom recovered from his health issues, but the band had moved on. When it came time for a reunion concert in the ‘80s, Tom got the call and was back in the mix. They’ve been touring ever since and maintain a massive fan base the world over.

Never before have they shared their story, in their own words. In *Long Train Runnin’* they’ll change that.

A Good Day for Chardonnay

Darynda Jones

Running a small-town police force in the mountains of New Mexico should be a smooth, carefree kind of job. Sadly, full-time Sheriff—and even fuller-time coffee guzzler—Sunshine Vicram, didn’t get that memo.

All Sunshine really wants is one easygoing day. You know, the kind that starts with coffee and a donut (or three) and ends with take-out pizza and a glass of chardonnay (or seven). Turns out, that’s about as easy as switching to decaf. (What kind of people do that? And who hurt them?)

Before she can say iced mocha latte, Sunny’s got a bar fight gone bad, a teenage daughter hunting a serial killer and, oh yes, the still unresolved mystery of her own abduction years prior. All evidence points to a local distiller, a dangerous bad boy named Levi Ravinder, but Sun knows he’s not the villain of her story. Still, perhaps beneath it all, he possesses the keys to her disappearance. At the very least, beneath it all, he possesses a serious set of abs. She’s seen it. Once. Accidentally.

Between policing a town her hunky chief deputy calls four cents short of a nickel, that pesky crush she has on Levi which seems to grow exponentially every day, and an irascible raccoon that just doesn’t know when to quit, Sunny’s life is about to rocket to a whole new level of crazy.

Yep, definitely a good day for chardonnay.

The Life-Changing Science of Detecting Bullshit

John V. Petrocelli

The Life-Changing Science of Detecting Bullshit explains how bullshit works, and how critical thinking skills can be used to successfully detect and thwart its unwanted effects.

Bullshit—that which results from communicating with little to no regard for truth, verifiable evidence, or existing knowledge—is an extremely undesirable social and communicative substance, that can be found in almost every domain of life. Either through social media, real news, fake news, salespeople, or casual conversation with others, people are constantly bombarded with bullshit. Growing interest and concern has recently elevated bullshit and bullshitting to the status of technical, behavioral terms and its very own field of study. It turns out science has some important things to say about these issues, including when bullshitting is most likely to occur, its consequences, and what we can do about it.

The Life-Changing Science of Detecting Bullshit will demonstrate for readers how they, and even experts, are susceptible to bullshit and actively engage in bullshitting, and how real-world bullshit artists successfully operate to sell us wine, jewelry, automobiles, and homes. Readers will come to see how the science of bullshit has important applied implications and how fine-tuning their bullshit detectors and becoming more competent disposers of BS can prevent it from wreaking havoc on their lives and relationships.

JOHN V. PETROCELLI is an experimental social psychologist and Professor of Psychology at Wake Forest University. His research examines the causes and consequences of BS and BSing in the way of better understanding and improving BS detection and disposal. Petrocelli’s research contributions also include attitudes and persuasion and the intersections of counterfactual thinking with learning, memory and decision making. His research has appeared in the top journals of his field including the Journal...
Eloquence of the Sardine
Extraordinary Encounters Beneath the Sea

Bill François

A charming narrative nonfiction book about the secret lives of fishes.

If we listen to the ocean, what do we hear? What can it teach us? How can it change us?

Written by a marine scientist (and winner of French eloquence competitions), this work of narrative non-fiction blends Bill François’ personal story with that of sea creatures to create an original and exciting work. In poetic prose, he describes his unlikely journey from being a Parisian child, afraid of the water and crippled by self-consciousness, to an eloquent and self-assured young man with a passion for the ocean and all who inhabit it. In doing so, he tells the stories of sardines, anchovies, eels, suckerfish, and whales (to name a few), and demystifies these creatures’ fascinating conversations.

A mix between science and storytelling from the past and present, Eloquence of the Sardine is an invitation to dive deep and learn from the secrets of the ocean.

Trial by Fire

A Novel

P. T. Deutermann

Based on a true story—a dramatic WWII novel of attack, survival, and triumph on board an aircraft carrier in the Pacific.

March 19, 1945: The war in the Pacific approaches its apocalyptic climax. The largest wartime armada ever assembled, Task Force 58, is closing in on Okinawa; once taken, it will finally put American B-29 bombers in range of the home islands of Japan—and victory.

At the heart of the fleet are 14 Essex-class aircraft carriers, including the USS Franklin, known as "Big Ben"—a 27,000-ton behemoth, home to 3,500 crewmen and 100 aircraft. Just after dawn, while crewmen prepare for battle, a single Japanese Yokosuka D4Y breaks through the clouds and drops two 500-pound bombs on Big Ben. The first rips through the flight deck’s 3-inch armor to the hangar deck, exploding amidst two dozen planes carrying 36,000 gallons of gas and 30 tons of explosives. Rockets and bombs howl in all directions. Hundreds of men are forced to leap into the sea to escape, leaving the captain with only one third of his crew; there are more dead, wounded, and trapped men left onboard than able-bodied sailors.

_P.T. DEUTERMANN is the noted author of many previous novels based on his experiences as a senior staff officer in Washington and at sea as a Navy Captain, and later, Commodore. His WWII works include Pacific Glory, which won the W.Y. Boyd Award for Excellence in Military Fiction, The Hooligans, The Nugget, Sentinels of Fire, The Commodore, Ghosts of Bungo Suido, and The Iceman. A Murder Among the Manhattan Elite

John Glatt

_New York Times _bestselling author John Glatt tells the true story of Thomas Gilbert Jr., the disturbed young man accused of murdering his father, a Manhattan millionaire and hedge fund founder.

Thomas Gilbert Jr. led a charmed life. The son of a wealthy hedge fund manager and a financier, he grew up surrounded by a loving family and all the luxury an Upper East Side childhood could provide: education at the elite Buckley School and Deerfield Academy, summers in a sprawling seaside mansion in the Hamptons. He was strikingly handsome, moving with ease through glittering social circles and following in his father’s footsteps to Princeton. His friends saw him as a leader; his parents adored him.

But Tommy always felt different, and the cracks in his façade began to show. What started as quiet exhaustion turned into warning signs of OCD, increasing paranoia, and—most troubling—an indescribable, inexplicable hatred of his father. As his parents begged him to seek psychiatric help, Tommy pushed back by self-medicating with drugs and escalating violence. When a fire destroyed his recently-estranged best friend’s Hamptons home, Tommy was the prime suspect—but he was never charged. Just months later, he arrived at his parents’ apartment, calmly asked his mother to leave, and shot his father point-blank in the head.

Now, journalist John Glatt takes an in-depth look at the devastating crime that rocked Manhattan’s upper class. With exclusive access to sources close to Tommy, including his own mother, Glatt constructs the agonizing spiral of mental illness that led Thomas Gilbert Jr. to the ultimate unspeakable act.

The Devil's Dictionary

Steven Kotler

New York Times bestselling author Steven Kotler's follow up to Last Tango, a near-future thriller about the evolution of empathy in the tradition of William Gibson and Neal Stephenson.

Hard to say when the human species fractured exactly. Harder to say when this new talent arrived. But Lion Zorn, protagonist of Last Tango, is the first of his kind—an empathy tracker, an emotional soothsayer, with a felt sense for the future of the we. In simpler terms, he can spot cultural shifts and trends before they happen.

The Devil's Dictionary finds Lion Zorn enmeshed with a strange subculture: polyamorous crypto-currency fiends with a tendency toward eco-terrorism. These crypto-eco-punks have executed the largest land grab in U.S. history, buying up huge swatches of the American west to establish the world’s first mega-linkage. This unbroken tract of wild lands stretching from Yellowstone to Yukon is meant to protect biodiversity and stave off the Sixth Great Extinction, but something’s rotten in Eden. Instead of saving existing species, exotic creatures unlike anything seen on Earth keep turning up. Called in to track down the origin of these exotics, Lion quickly finds himself entangled in a battle for the survival of our species.

A Novel

Chevy Stevens

The acclaimed and beloved author of Still Missing is back with her most breathtaking thriller yet.

For decades, people have been warned about the Cold Creek Highway. Hitchhikers have vanished along it over the years, and women have been known to have their cars break down... and never be seen again. When Hailey McBride decides to run away from an unbearable living situation, she thinks that her outdoor skills along with the Cold Creek wilderness will save her, and she counts on people thinking that she was the victim of the killer.

One year later, Beth Chevalier arrives in Cold Creek to attend a memorial for the victims of the highway, but it might as well be one week for the amount of pain that Beth is still dealing with after her sister, Amber, was murdered the previous summer. Beth has quit university, is lying to her parents, and popping pills like Tic Tacs. Maybe this will finally bring her peace.

When she gets a job at a local diner where Amber once worked, she connects with people who knew her sister. Beth wants to find who killed her sister and put her own life back together, but as she gets closer to the truth, she learns that there is more than one person lying in Cold Creek.

America is about to face the deadliest terrorist attack on its soil since 9/11. Iran has been planning a revenge attack for years, with three goals in mind. Bring America to its knees. Assassinate the popular U.S. President J. P. Dellenbaugh. And neutralize their most successful agent, Dewey Andreas.

The first pre-emptive attack against Dewey Andreas fails but it worries the head of the CIA enough that he sends Dewey out of town and off the grid. But as intelligence analysts work as fast as they can to unravel the chatter on terrorist networks, Muhammed el-Shakib, head of Iran's military and intelligence agency, launches a bold strike. When the President arrives in New York to address the U.N., embedded terrorist assets blow up the bridges and tunnels that connect Manhattan to the mainland. Taking control of the island with its hidden forces, they race to the U.N. in search of Dellenbaugh and to launch an even deadlier attack that will wreak unimaginable destruction on the country itself.

While a shocked country struggles to mount a counter-attack, a hopeless, outmanned and outgunned Dewey Andreas sneaks onto the island of Manhattan to fight a seemingly impossible battle.

The Ambassador

Joseph P. Kennedy at the Court of St. James's 1938-1940

Susan Ronald

Acclaimed biographer Susan Ronald reveals the truth about Joseph P. Kennedy's very controversial tenure as Ambassador to Great Britain on the eve of World War II.

On February 18, 1938, Joseph P. Kennedy was sworn in as US Ambassador to the Court of St. James. To say his appointment to the most prestigious and strategic diplomatic post in the world shocked the Establishment was an understatement: known for his profound Irish roots and staunch Catholicism, not to mention his “plain-spoken” opinions and womanizing, he was a curious choice as Europe hurtled toward war.

Initially welcomed by the British, in less than two short years Kennedy was loathed by the White House, the State Department and the British Government. Believing firmly that Fascism was the inevitable wave of the future, he consistently misrepresented official US foreign policy internationally as well as direct instructions from FDR himself. The Americans were the first to disown him and the British and the Nazis used Kennedy to their own ends.

Through meticulous research and many newly available sources, Ronald confirms in impressive detail what has long been believed by many: that Kennedy was a Fascist sympathizer and an anti-Semite whose only loyalty was to his family's advancement. She also reveals the ambitions of the Kennedy dynasty during this period abroad, as they sought to enter the world of high society London and establish themselves as America’s first family. Thorough and utterly readable, The Ambassador explores a darker side of the Kennedy patriarch in an account sure to generate attention and controversy.

Maiden Voyages

Magnificent Ocean Liners and the Women Who Traveled and Worked Aboard Them

Siân Evans

In an engaging and anecdotal social history, Maiden Voyages explores how women’s lives were transformed by the ‘Golden Age’ of ocean liner travel between Europe and North America.

During the twentieth century, transatlantic travel was the province of the great ocean liners. It was an extraordinary undertaking made by many women, whose lives were transformed by their journeys between Britain and America. Some travelled for leisure, some for work; others to reinvent themselves or find new opportunities. They were celebrities, migrants and millionaires, refugees, aristocrats and crew members whose stories have mostly remained untold—until now.

Maiden Voyages is a fascinating portrait of these women as they sailed between the old world and the new. The ocean liner was a microcosm of contemporary society, divided by class: from the luxury of the upper deck, playground for the rich and famous, to the cramped conditions of steerage or third class travel. In first class you’ll meet A-listers like Marlene Dietrich, Wallis Simpson, and Josephine Baker; the second class carried the new era of professional and independent women, like pioneering interior designer Sibyl Colefax. Down in steerage, you’ll follow the journey of émigré Maria Riffelmacher as she escapes poverty in Europe. Bustling between decks is a crew of female workers, including Violet “The Unsinkable” Jessop, who survived the sinking of the Titanic.

Entertaining and informative, Maiden Voyages captures the golden age of ocean liners through the stories of the women whose transatlantic journeys changed the shape of society on both sides of the globe.

The Source of All Things

A Heart Surgeon's Quest to Understand Our Most Mysterious Organ

Reinhard Friedl

In the tradition of Henry Marsh’s *Do No Harm*, a heart surgeon’s personal investigation of the human heart, moving from his riveting clinical experiences to a more poetic understanding of its work...

The heart is our most important organ. Yet despite that it has not changed since the appearance of Homo sapiens 300,000 years ago, it is also our most mysterious. In most human cultures, it is seen as the source of love, sympathy, joy, courage, strength and wisdom.

What if the heart could answer questions neurosciences can’t begin to? Having witnessed the extraordinary complexity and unpredictability of human hearts in the operating theatre—each one individual, like a fingerprint—heart surgeon Reinhard Friedl looked again at this “primitive pump” to reconcile it with his experiences from thousands of heart operations.

In this book, he presents findings from various scientific disciplines, such as secret connections of the heart and brain and their influence on emotions and consciousness. He reveals the miracle that is the heart that we speak about so often yet is strangely foreign to many human beings.

Full of compelling patient stories, *The Source of All Things* ends with a plea: that we recognize the heart’s wisdom and adopt a more heart-centered way of living, leading to greater health and more joy.

The Real Valkyrie

The Hidden History of Viking Warrior Women

Nancy Marie Brown

In the tradition of Stacy Schiff’s Cleopatra, Brown lays to rest the hoary myth that Viking society was ruled by men and celebrates the dramatic lives of female Viking warriors

In 2017, DNA tests revealed to the collective shock of many scholars that a Viking warrior in a high-status grave in Birka, Sweden was actually a woman. The Real Valkyrie weaves together archaeology, history, and literature to imagine her life and times, showing that Viking women had more power and agency than historians have imagined.

Brown uses science to link the Birka warrior, whom she names Hervor, to Viking trading towns and to their great trade route east to Byzantium and beyond. She imagines her life intersecting with larger-than-life but real women, including Queen Gunnhild Mother-of-Kings, the Viking leader known as The Red Girl, and Queen Olga of Kyiv. Hervor’s short, dramatic life shows that much of what we have taken as truth about women in the Viking Age is based not on data, but on nineteenth-century Victorian biases. Rather than holding the household keys, Viking women in history, law, saga, poetry, and myth carry weapons. These women brag, “As heroes we were widely known—with keen spears we cut blood from bone.” In this compelling narrative Brown brings the world of those valkyries and shield-maids to vivid life.

The Garden House

A Novel

Marcia Willett

A charming and heartwarming novel about family, yearning, and long-buried secrets.

Fresh out of university and right on the precipice of adulthood, El is trying her best to figure out what it is she really wants from life. This is complicated by the fact that she is also dealing with the loss of her father, Martin. After his sudden death, El inherits and moves into his home just outside Tavistock, in the Devon countryside. Her stepbrother and sort-of friend, Will, comes to help her through her grief and to go through her father’s belongings. As El spends time in her father’s home, she uncovers more about his life, and the secrets he had been keeping from her and her family. This includes mysterious messages on his phone from someone El suspects may have been more than just a friendly acquaintance.

Julia is also mourning Martin, but for many reasons, they thought best to keep their relationship a secret. So she must now grieve entirely on her own. All she has to remember of her love are the text messages they sent to each other in their secret code, and the memories of their time spent at The Garden House: a beautiful community garden and teashop nearby. It is where they met, fell in love, and where their secret affair will inevitably be uncovered one day.

As El and Will begin to decipher the messages on Martin’s phone, and piece together her father’s long-buried secrets, they are brought closer and closer to each other, to Julia, and to a truth that is difficult for all to face.

With the fate of the nation’s capital hanging in the balance and the threat of nuclear destruction on the horizon, Mason’s team must unravel a conspiracy involving a greedy investment bank, a sadistic drug cartel, and a Russian energy company before it’s too late. And the secret to doing so lies buried in the past, in a dark union between the financial sector and an apocalyptic cult hellbent on remaking the world in its own image.
