#### Sample Lies:

##### *Left and Right Brain*

There's no solid division between hemispheres; the left brain can learn "right-brain skills" and vice versa.

##### *Three Wise Men*

Nowhere in the Bible does it specify that there were three.

##### *Flush Rotation*

A flushed toilet doesn't drain the other way in the opposite hemisphere. The Coriolis effect doesn't apply to water in toilets.

##### *Einstein was a terrible student and failed mathematics.*

Albert Einstein actually aced his report cards. His reputation for being a notoriously terrible student? That came from his habit of talking back to his teachers when he felt they were acting too authoritarian.

#### Sample Facts that Seem Like Bullsh\*t:

A day on Venus is longer than a year.

A chicken lived without a head for 18 months.

Human children don't get kneecap bones until they're around three years old.

A mantis shrimp can punch with the force of a 22-caliber bullet.
