DEPARTMENT OF MIND-**BLOWING THEORIES** TOM GAULD A side-splitting skewering of the sober world of STEM

No one is safe when humorist and cartoonist Tom Gauld directs his hilarious gaze to your profession. Just as he did with writers, poets, and literary classics for the Guardian's Books page, Gauld now does with hapless scientists, nanobots, and puzzling theorems for his weekly New Scientist strip, the international magazine that covers all aspects of science and technology.

Gauld's Department of Mind-Blowing Theories presents one hundred and fifty comic strips topical and funny enough to engage any layperson with a rudimentary recall of their old science classes as well as those who consider themselves boffins of the contemporary physical and natural world.

A dog philosopher questions what it really means to be a 'good boy' while playing "Brilliant... Our greatest techno-dystopian fetch! A virtual assistant and a robot-cleanfears and anxieties [are] followed to their er elope! The undiscovered species and the most tragicomic end." theoretical particle face existential despair! -Brain Pickings Facebook commenters debunk Darwin's posting of On the Origin of Species! Science "Tom Gauld's deceptively simple comics vs science fiction! Why are there poodles hold a mirror to human hypocrisies." pouring out of this wormhole?! -Huffington Post

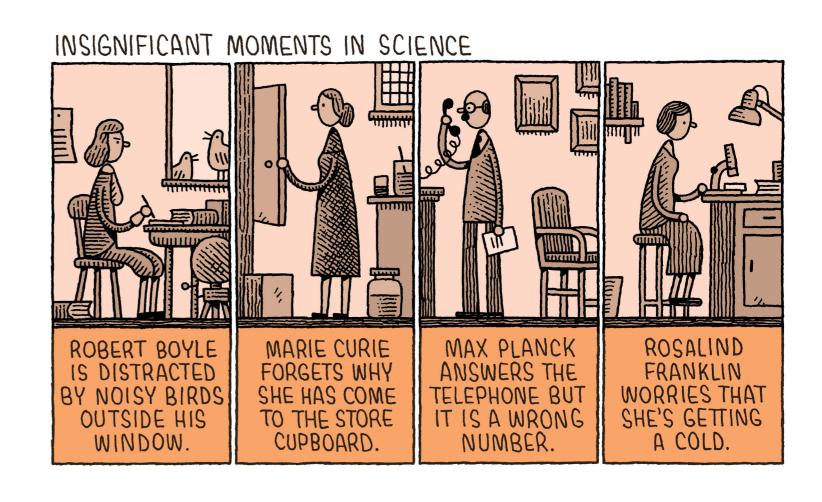

One could hypothesize just how Gauld is able to command such quick-witted knowledge of the scientific world; however, as these strips prove, Gauld would retaliate with the sharpest of punchlines to that hastily cobbled postulate. Gauld won an Eisner for Best Humor for Baking With Kafka, and Department of Mind-Blowing Theories is sure to cement his reputation as the foremost authority on joke-generating technology world around us.

Yoshiharu Tsuge was born in Tokyo, Japan in 1937. Influenced by the realistic and gritty rental manga of Yoshihiro Tatsumi, he began making his own comics. He was also briefly recruited to assist Shigeru Mizuki during his explosion of popularity in the 1960s. In 1968, working for *Garo magazine*, Tsuge published the ground-breaking story "Neji-shiki" (commonly called "Screw Style" for Western readers.) This story established Tsuge as not only an influential manga-ka but a cultural touchstone in the changing Japanese art world. He is considered the originator and greatest practitioner of the "I-novel" method of comics-making. The joy of food and tradition unites a family faltering in the face of illness and loss

Following his acclaimed English language debut Uncomfortably Happily, Yeon-sik Hong returns with a graphic novel that is as insightful as wrenching as it probes life with aging parents and how we support the people we love.

A new father named Madang, moves to a quiet cottage in the countryside with his wife and young baby. He's excited to build a strong foundation for his growing family but his priorities are divided. His elderly parents are impoverished and struggling to survive. He becomes the primary caregiver for his ailing mother Hyung-Soo, which also means negotiating a fraught relationship with his father.

As her illness worsens, he accompanies his mother on many hospital trips. Madang overcomes his exhaustion and frustration by reminiscing about family meals together, and particularly Hyung-Soo's kimchi. Memories of her cooking and the act of dining together are elevated to glory with Madang and his brother

often breaking into song in response to her magnificent meals. These joyful depictions, however, are juxtaposed with Hyung-Soo's hospital room.

After Hyung-Soo dies, Madang is struck by the incomparable dedication she showed in caring for and feeding her family, who always came first. With an unassuming wisdom, Umma's Table serves as a reflection on the enduring nature of family and the power of tradition.

YEAR OF THE RABBIT TIAN VEASNA

One family's quest to survive the devastation of the Khmer Rouge

Year of the Rabbit tells the true story of one family's desperate struggle to survive the murderous reign of the Khmer Rouge in Cambodia. In 1975, the Khmer Rouge seizes power in the capital city of Phnom Penh. Immediately after declaring victory in the war, they set about evacuating the country's major cities with the brutal ruthlessness and disregard for humanity that characterized the regime ultimately responsible for the deaths of one million citizens.

Cartoonist Tian Veasna was born just three days after the Khmer Rouge takeover, as his family set forth on the chaotic mass exodus from Phnom Penh. Year of the Rabbit is based on firsthand accounts, all told from the perspective of his parents and other close relatives. Stripped of any money or material possessions, Veasna's family found themselves exiled to the barren countryside along with thousands of others, where food was scarce and brutal violence a constant threat.

Year of the Rabbit shows the reality of life in the work camps, where Veasna's family bartered for goods, where children were instructed to spy on their parents, and where reading was proof positive of being a class traitor. Constantly on the edge of annihilation, they realized there was only one choice-they had to escape Cambodia and become refugees. Veasna has created a harrowing, deeply personal account of one of the twentieth century's greatest tragedies.

PRAISE FOR YEAR OF THE RABBIT "A sense of dread pervades almost every panel."—The Phnom Penh Post "Tian shows how horror can become everyday... [Year of the Rabbit] vibrates with a thousand details that show the dogmatic absurdity of the executioners and the hope that can still survive in victims on the edge of the abyss."-Telerama

Tian Veasna was born in Cambodia in 1975, three days after the Khmer Rouge came to power. He moved to France with his parents in 1980, where he graduated from Strasbourg's École des Arts Décoratifs in 2001. After that he returned to Cambodia for the first time, offering drawing classes as part of a United Nations humanitarian project. Since then Veasna has worked in publishing, taught visual art, and cofounded the workshop and gallery space Le Bocal, which specializes in illustration and graphic art. Veasna's desire to recount what his family lived through in 1975 led him to return to Cambodia frequently and record the memories of his family members. Those stories became Year of the Rabbit, his first book. Veasna lives in France.
