## Chasing Truth

Julie Cross

The bestselling author of *Whatever Life Throws at You* kicks off a brand-new series perfect for fans of Ally Carter or Robin Benway.

Three months after the scandal that rocked the nation—the suicide of Simon, the teenage son of a California senator—seventeen-year-old Eleanor Ames is left wondering if abandoning her con-artist family for the private school life was worth it. Not only was Simon her date to homecoming, he was also one of the few people at school who didn't seem like a phony. And she can spot a phony a mile away. Just when things are beginning to return to normal, Miles Beckett moves into her apartment building, rides her bus to school, and won't stop asking questions about Simon's death.

The thing is...Ellie has questions too. Not only about Simon, but about the new kid who seems to be here for the sole purpose of dredging up a ghost. Can Ellie uncover what happened to Simon without falling in too deep with Miles?

Julie lives in Central Illinois with her husband and three children. She's a lover of books, devouring several novels a week, especially in the young adult and new adult genres. You can find her online at [www.juliecrosbooks.com](http://www.juliecrosbooks.com).

## Olivia Decoded

Vivi Barnes

The long-anticipated follow-up to *Olivia Twisted* is an action-packed thriller full of romance, intrigue, and of course computer hacking.

Eight months after Jack left her on her balcony, Liv is now happily settled into life with her grandfather and a senior at the uppity Dalton Academy. When she receives roses and an expensive bracelet on Valentine's Day, she suspects Jack is behind it. But when the gifts begin getting creepy, she enlists his and Sam's help to discover who the stalker is.

Jack is busy helping Nancy run the Briarcreek home, which is also now home to the displaced girls of the defunct escort service, including Maggie, his ex-girlfriend. When Nancy tells him someone is hacking into their house accounts and stealing money, Jack puts Micah on duty to discover who's behind it. He's shocked when they discover that the hacking is traceable to his computer—and that it was used to purchase an expensive bracelet—the same one someone sent to Liv.

Jack and Liv must work together to figure out who is stalking her and setting him up as a thief in his own house and put a stop to it for good.

Vivi Barnes was raised on a farm in East Texas where her theater-loving mom and cowboy dad gave her a unique perspective on life. After college, she convinced her supportive husband to move with her to be part of the sunshine and magic in Orlando, Florida. On a good day, she manages to divide her time writing, working, reading, goofing off with her three kids, and avoiding dirty dishes. # The Replacement Crush

Lisa Brown Roberts

**An accessible, heart-melting romance that also tackles serious issues for teen girls today, from the author of *Playing the Player*.**

Romance book blogger Vivian Galdi is a girl on a mission: the Replacement Crush Mission. After Jake the Snake pretends their secret summer kissing sessions never happened, Vivian creates a list of safe crush targets, determined to avoid anyone who pings her zing meter. But nerd-hot Dallas, the new guy in town, sends the mission and Vivian's zing meter into chaos. While designing software for the bookstore where Vivian works, Dallas wages a counter mission, analyzing his target and taking advantage of the tactical errors in her strategy.

Does Dallas just like a good game of Replacement Crush Battlefield, or is he on his own mission to prove to Vivian that true love can't be strategized? And how much collateral damage can they both sustain during the heat of battle?

Lisa Brown Roberts currently works in higher education during the day and writes feverishly at 3:00 in the morning, on weekends, and any other time she can convince her family to go play outside and leave her alone. Except for the cats. They can stay, because every writer needs a cat (or two) on her lap. You can find Lisa on Twitter @LBrownRoberts or [www.lisabrownroberts.com](http://www.lisabrownroberts.com).

Pintip Dunn

**Minority Report meets Legend in this thrilling sci-fi romance available in paperback for the first time.**

In a futuristic world the entire society is built around memories being sent back from the future. On their 17th birthday everyone will receive a memory that will help sculpt who they will be in the future. When Callie receives her memory, it isn't one of her changing the world. Callie is gifted with the vision of her murdering her younger sister, Jessamine.

Arrested for a crime she has yet to commit Callie finds herself brutalized and held in the hell that is known as Limbo, a place where they keep people whose vision shows them breaking the law. While being held, Callie is tested on and finds out that the government are holding, torturing, and then making these people live out their vision.

Once they are forced to commit their crime they are killed. This is the fate in store for Callie, but it's so much worse, because if the government finds out that Jessamine is gifted, they'll take her and do tests on her. Callie is saved from her fate though by Tony, a boy she knew years before.

Tony helps break her out of prison and takes her to a camp of outsiders who have each run from civilization and the future memory they were given. But running doesn't change the future and Jessamine is still taken and tested on by the government which sets off the motion of Callie returning to the city, but will Callie save her little sister or be forced to complete her memory of the future and kill her?

When her first-grade teacher asked her what she wanted to be when she grew up, Pintip replied, "An author." Although she has pursued other interests over the years, this dream has never wavered. ## Spindle

Shonna Slayton

**From the author of *Cinderella's Dress*, a brand-new standalone novel that retells the story of *Sleeping Beauty*, this time set during the Industrial Revolution.**

Sleeping Beauty's happily ever after isn't the end of the story...

The evil fairy's magic is still trapped in her unfulfilled curse, and the only way to release it is to see a girl to the death. But the spindle has been hidden away for centuries, until a peddler offers it to an unsuspecting mill girl during the Industrial Revolution.

Briar Jenny had planned to escape her life of poverty and hardship with Wheeler, an ambitious young man who plans to leave the valley and start his own business. Trouble is, he no longer cares for her, fancying the new girl who just moved into town to work at the cotton mill. When Briar tries to use the spindle to win back Wheeler's heart and secure her future, she has no idea the power she has unleashed.

After pricking her finger on the magic spindle, she falls under a sleeping sickness that slowly claims her body bit by bit. It will take all her strength, to not only survive, but also break the curse and defeat the evil fairy for good.

Shonna Slayton is the author of the YA novels *Cinderella's Dress* (Summer 2014) and *Cinderella's Shoes* (Fall 2015) published by Entangled Teen. She finds inspiration in reading vintage diaries written by teens, who despite using different slang, sound a lot like teenagers today. When not writing, Shonna enjoys amaretto lattes and spending time with her husband and children in Arizona.

Feeling something for Reid Wentworth is not part of the plan. Josie Harper doesn't have time to think about hot boys when she has to help unite the Resistance against the Consortium.

To say her life has changed since discovering she's an Oculus would be the understatement of the century. The Consortium is out to enslave humanity—yeah, they aren't fooling around—and as an Oculus, she's one of the few people capable of altering reality and thwarting them.

In the largest Resistance hub in North America, Josie learns she doesn't only have the strongest abilities to Push and Retract reality, she has gifts no other Oculus has. When they get word that the Consortium is flying in a world-renowned tech researcher to their headquarters who may have the knowledge to enslave humans, Josie and Reid assemble a team to intercept the researcher and to bust out Reid's best friend, Santos, who was taken hostage until they get Josie. But the Board won't let them leave.

The lines have blurred. The only person Josie can trust is Reid.

# Infinity

Jus Accardo

**This start of a new science-fiction series from the bestselling author of the Touch series is full of action and romance.**

Two families. One Device. Infinite possibilities...

Being the daughter of an army general isn't easy. Someone's always watching, and dating? Not a chance when any guy that gets within ten miles has to undergo a background check. But, on the bright side, seventeen year old Kori Anderson finally has her freedom. For the first time in her life, she's living off base. Unfortunately, when she's caught vandalizing public property, that all changes.

With her father called to Washington, supervision is arranged in the form of two subordinates. There's Cade, as beautiful as he is deadly, he watches her with hungry eyes, and Noah, hauntingly familiar, glares at her in disgust. When they save her from a seemingly random attack, Kori's world turns upside down.

Kori's father heads the Infinity Division, a secret government project responsible for inventing a device that allows travel between parallel Earths. When a man seeking revenge—a twisted individual who feels wronged by her father—declares war on Infinity, Kori ends up in a deadly crossfire.

Jus is the bestselling author of the popular Denazen series from Entangled publishing, as well as the Darker Agency series, and the New Adult series, *The Eternal Balance*. A native New Yorker, she lives in the middle of nowhere with her husband, three dogs, and sometimes guard bear, Oswald.

Sara Wolf

**A compelling, heart-wrenching second in a series perfect for fans of Jennifer L. Armentrout's contemporary romances, which has already garnered legions of fans as a self-published work.**

It's been nineteen days since Isis Blake forgot about him. The boy she can't quite remember. She's stuck in the hospital with a turban-size bandage on her head, more Jell-o than a human being should ever face, and a tiny bit of localized amnesia. Her only goal? To get out of this place before she becomes a complete nutjob herself.

But as Isis's memories start to return, she realizes there's something important there at the edges of her mind. Something that may mean the difference between life and death. Something about Sophia, Jack's girlfriend.

Jack Hunter—the "Ice Prince"—remembers everything. Remembers Isis's purple hair and her smart-assed mouth. Remembers that for a little while, Isis made him feel human. She made him feel. She burned a hole in the ice...and it's time to freeze back up. Boys like him don't deserve girls like her. Because Jack is dangerous. And that danger might be the only thing protecting her from something far more threatening.

Her past.

Sara Wolf is a writer, Sox fan, wine girl, and author of the *Lovely Vicious* series.

## Redux

A.L. Davroe

**The sequel to the science-fiction Cinderella retelling *Nexis* is full of twists and turns, and a heart-stopping romance readers will swoon for.**

The domed city of Evanescence has been overrun with renegade androids and the disfavored from *The Waste*. Ellani Drexel joins Guster and a small band of refugees in escaping the city through the Undertunnel. They hope to make it to Cadence, their sister city, but once the door has been sealed behind them, they find that the dark, days-long journey through the tunnel is more difficult than it appears.

Tensions grow high as reality sets in and truths are revealed. Ella already knows some of it—like her involvement in her city's downfall and her determination to not only make it up to the survivors, but to one day reclaim her home. But she doesn't know why Guster is suddenly acting strange. And she isn't counting on the game-changing secret that Quentin reveals about Guster. Nor does she know that the Disfavored are after her. And she certainly doesn't know that the Anansi Virus that she planted in *Nexis* had a secondary protocol...

It's called Redux.  
And it's waiting for Ella.

A.L. Davroe likes books, cats, chai tea lattes, and the word "chime." By day, A.L. makes cheese for a local artisan dairy and, by night, A.L. writes in various sub-genres of adult and YA fantasy, science fiction, horror, and romance, and she lives in Connecticut.

That's where we come in. Founded by industry-savvy authors, Entangled Publishing utilizes a bold new business model to bridge the gap between traditional and indie publishing, giving our authors the best of both worlds. We implement the agency model across all departments at Entangled, which means everyone from the copy editor to the marketing director has a financial stake in your book. In other words, we don't make money unless you make money.

## **RETURN POLICY**

We accept returns for credit of books purchased directly from us. Returns must be unmarked and in saleable condition. Returns must be shipped prepaid to the following address:

MPS RETURNS CENTER  
14301 Litchfield Road  
Orange, VA 22960

Each shipment of returns must be accompanied by an accurate packing list showing customer claim number, ISBN, and quantity (by title) of all books included in the shipment. Returns will be credited at the average discount received by the customer on purchases of that class of books from Macmillan during the first 11 months of the prior calendar year.

The deadline for returns of a title is 90 days after our official out-of-print date for that title. Our full returns policy for trade books is printed on the back of our invoices, as is our returns policy for other types of books. The policies are also available upon request.
