**Other Available Formats:**

Hardcover ISBN: 9781912286393

## Guinness World Records: Science & Stuff

### Guinness World Records

*Guinness World Records: Science & Stuff* is a whirlwind tour through the astounding, record-breaking world (and universe) around us. Perfect for curious minds, this book is a great addition to any 7-13 year old's library.

Packed with spectacular superlatives, shocking stats, fantastic facts and fun figures, *Science and Stuff* celebrates the simple joy in finding things out. What can cats teach us about the laws of physics? Why was cabbage banned on the *International Space Station*? (Can you fart in space?) And would a penny dropped from the Empire State Building really kill someone? (Short answer: No!)

But it's not all facts and stats. The feature chapter just for **Makers**, introduced by our very own mad professor Burnaby Q. Orbax, challenges you to attempt **record-breaking science experiments at home**, from the **fastest Mentos & Soda rocket car** to the **most slime thrown and caught in a minute!**

Join us as we rise from the deepest depths of the ocean, where weird glowing fish hunt in the darkness, to the mountaintop observatories where scientists unravel the secrets of the universe.

GUINNESS WORLD RECORDS (GWR) is the universally recognized global authority on record-breaking achievement. First published in 1955, the annual GUINNESS WORLD RECORDS book has gone on to become one of the best-selling titles of all time, with 2.8 million copies sold in 2013. Since its launch nearly 60 years ago over 132 million copies – and 3 million e-books - have been sold in 20 languages, in more than 100 countries. The internationally renowned brand is also available across a number of platf...
