Step into the shoes of an space cadet! Learn all about space, discover what life is like on the ISS and complete activities to find out if you have what it takes to be an astronaut in training!

Learn how to become and astronaut in this exciting title! Packed with bitesize information and fun facts about the life of an astronaut, this book will tell you all about space, astronomy and life on the International Space Station.

Simple activities will test your skills and reinforce the information you read in the book. Can you help to repair the ISS on a spacewalk? Or remotely control a Mars rover? Or even spot constellations in the sky? Take a look inside to find out!
Step inside an exciting laboratory! Learn all about scientific ideas, conduct experiments and complete activities to find out if you have what it takes to be a scientist in training!

Learn how to become a scientist in this exciting title for curious kids! Packed with bitesize information and fun facts about the life of a scientist, Scientists in Training will teach you the basics of chemistry, biology, and physics!

Simple activities will test your skills and reinforce the information you read in the book. Can you create a chemical reaction? Or record data on a living plant? Or even figure out which force is needed to make an object move? Take a look inside to find out!
A bilingual introduction to words, numbers, shapes, and colors

Featuring first words, numbers, colors, and shapes, alongside a clear, colorful layout and bold images, this introduction to French helps young children learn basic vocabulary.

An introduction for parents and teachers suggests strategies for helping children learn most effectively. A complete English-French word list at the end of the book repeats the words and includes a helpful pronunciation guide and language tips.

With a format that encourages adult-child interaction, toddlers and their parents will find My First French Book to be the ideal "look and say" picture-word book.

Rights Catalog Text

Mandy Stanley illustrated both the I Can Count and I Can Spell series and the award-winning First Number Book and First Word Book, which were both Smithsonian magazine Notable Books for Children. She trained at Great Yarmouth College of Art and Design and Nottingham Polytechnic, U.K., where she gained a degree in fashion.
A bilingual introduction to words, numbers, shapes, and colors

Featuring first words, numbers, colors, and shapes, alongside a clear, colorful layout and bold images, this introduction to Spanish helps young children learn basic vocabulary.

An introduction for parents and teachers suggests strategies for helping children learn most effectively. A complete English-Spanish word list at the end of the book repeats the words and includes a helpful pronunciation guide and language tips.

With a format that encourages adult-child interaction, toddlers and their parents will find My First Spanish Book to be the ideal "look and say" picture-word book.

Mandy Stanley illustrated both the I Can Count and I Can Spell series and the award-winning First Number Book and First Word Book, which were both Smithsonian magazine Notable Books for Children. She trained at Great Yarmouth College of Art and Design and Nottingham Polytechnic, U.K., where she gained a degree in fashion.

Turn on the siren and zoom down the streets with some animal paramedics in this cheerful picture book all about ambulances. Lively wordplay, vibrant art, plus a visual dictionary, make this title a must-have for bookshelves everywhere.

This book is filled with humorous rhyming text by the award-winning poet Tony Mitton, which perfectly complements Ant Parker’s bold, bright illustrations. A picture dictionary identifying ambulance parts builds vocabulary and makes learning about ambulances exciting and fun.

Ant Parker is known for his distinctive, vibrant work in books such as Charlie Chick. His artwork has been animated for BBC Children’s TV and he has illustrated all the books in the bestselling Amazing Machines series. His other titles include the pop-up counting book 10 Little Monsters, and an I Am Reading title: JJ Rabbit and the Monster. Ant lives in London.

Tony Mitton has been writing since he was 9. He began writing specifically for children while still working as a primary school and special needs teacher. He now works full-time as a writer and sometimes performs his poems in schools and libraries, mainly in the UK. Tony has written all the picture books in the bestselling Amazing Machines series. H...

Get a worm's-eye view of marching legs, scary-looking pincers, and fast-flying wings.

*The Best Book of Bugs* looks at the life cycles, habitats, and amazing diversity of insects and spiders in stunning close-up detail. From the trapdoor spider ambushing its prey from an underground burrow, to a step-by-step story depicting a year in the life of a honeybee--this book has everything a young entomologist would ever want to know!

Claire Llewellyn is a prize-winning author of non-fiction on a wide range of subjects for young readers, and has written many books about reptiles. In 1992, she won the TES Junior Information Book Award for *My First Book of Time*, and in 2008, she was shortlisted for the Royal Society Prizes for Science Books Junior Prize for *Ask Dr K Fisher about Animals*. She lives in Hertford, U.K. with her family.
Plunge into the mysterious underwater world of sharks.

The Best Book of Sharks looks at the life cycles, habitats, and amazing diversity of these deadly predators. From the frilly-mouthed wobbegong that hides on the seabed, to the whale shark—a gentle giant who eats the tiniest prey. This book has everything a shark fan would ever want to know!

Claire Llewellyn is a prize-winning author of non-fiction on a wide range of subjects for young readers, and has written many books about reptiles. In 1992, she won the TES Junior Information Book Award for My First Book of Time, and in 2008, she was shortlisted for the Royal Society Prizes for Science Books Junior Prize for Ask Dr K Fisher about Animals. She lives in Hertford, U.K. with her family.
Blast off into Space to find out how rockets, probes, telescopes, and space shuttles work!

*The Best Book of Spaceships* introduces young readers to the amazing variety of spacecraft past, present, and ready to blast off into the future. From the first steps on the Moon, to life on a space station--this book has everything an aspiring young astronaut would ever want to know!

Ian Graham studied applied physics and journalism before starting work as a writer and editor for a group of electronics, computer and video magazines in London. After three years, he went freelance and has been writing mainly children's illustrated non-fiction books ever since then. He has had more than 230 books published on a wide range of topics, including space exploration, aircraft, robots, transport and general science. A book he wrote for Dorling Kindersley (Robert Winston's Science Experiments) won the 2012 UK Royal Society Young People's Book Prize.
Revised and updated 4th edition of this perfect one-volume go-to reference source on animals

Meet an amazing menagerie of creatures on this breathtaking safari through the animal kingdom. The Kingfisher Animal Encyclopedia spans Earth from pole to pole, covering 2,000 animals from the tiniest protozoan to the mightiest mammal.

Each entry describes the animal’s characteristics, behavior, and distribution, and gives their Latin names. The meticulously researched information is highlighted by clear, authoritative writing and more than 1,000 photographs and illustrations. Throughout the book, special feature panels focus on various aspects of animal behavior such as camouflage, migration, and hibernation. With comprehensive back-matter including a glossary, alternative name index, and general index, this one-stop reference tool is perfect for research or for browsing by animal-lovers of all ages.

David Burnie studied zoology and botany at the University of Bristol in England, and has worked as a nature reserve ranger and biologist. He has written and contributed to many award-winning books and multimedia titles, and has acted as a consultant and scriptwriter for many natural history programs. He is an avid birdwatcher, botanist, and bug-hunter.
A delightfully illustrated gift edition with more than seventy-five best-loved rhymes.

This delightfully illustrated contains more than seventy-five of the best-loved rhymes and songs of childhood, from soothing lullabies to schoolyard chants. Popular classics such as "Pat a Cake," "Humpty Dumpty," and "Jack and Jill" are joined by lesser-known rhymes and ditties from many different cultures. Kady MacDonald Denton’s illustrations add liveliness and humor. Together, parents and children will enjoy sharing A Child’s Treasury of Nursery Rhymes.

75 songs are available to download.

Kady MacDonald Denton has illustrated numerous titles for Kingfisher, including A Child’s Treasury of Nursery Rhymes, In the Light of the Moon by Sam McBratney, and two collections written by Ann Pilling, The Kingfisher Book of Bible Stories and The Kingfisher Treasury of Myths and Legends. She is also the creator of several picture books. She lives in Manitoba, Canada, and received the prestigious Governor General’s Award for her work.
