A visually stunning book about all kinds of wings—not just those on airplanes!

Wings takes readers on a fact-packed flight over a fascinating subject. Written by Tracey Turner, it offers a bird's-eye view of the first airplanes, the fastest jet planes, beetles, birds, winged horses, flying dragons—even winged unicorns. There's fun, easy-to-read information on wings of all kinds, including plenty of STEM material, presented in a mixture of text and speech bubbles that's perfect for readers aged 7 plus.

With Fatti Burke's stylish and colorful illustrations, *Wings* is a wonderful journey of discovery.

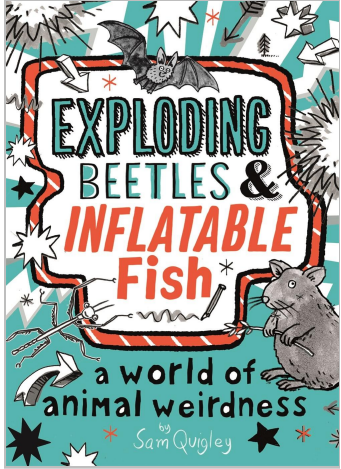

Tracey Turner has written more than 70 books, most of them for children, on subjects including inventions, the universe, famous writers, and deadly perils. Many have sold foreign rights all over the world, and some have become best sellers. She is the author of Kingfisher's *Wheels*. Tracey also commissioned and edited the *Horrible Histories* series for many years. She lives in Bath, UK.

Fatti Burke is an Irish illustrator who lives in Amsterdam. Her first three books (*Irelandopedia*, 2015; *Historopedia*, 2016; *Focloiropedia*, 2017) were bestsellers in Ireland. She recently illustrated titles in a new series entitled *I Look Up To...*, which looks at influential women who have made a difference in the modern world, incl...

ISBN: 9780753477267

\$16.99 / \$22.50 Can.

An original approach to math by stealth that makes the tricky concept of really big numbers fun and easy to understand.

How Many Hairs On a Grizzly Bear? And Other Big Questions about Numbers introduces children to a world of fascinating information about the infinite world of numbers.

Through vibrant, playful illustrations and fact-packed but witty text, the book explores the answers to questions such as "How many leaves on an oak tree?", "How many stars in the Milky Way?", and "How many stones in the Great Pyramid of Giza?", and covers a wide range of subjects, including animals, the human body, engineering, and Earth and space. Written by Tracy Turner, the book begins with small, easily observable numbers before building up to truly gigantic ones, like a nonillion, a tredecillion, a googol, and even ones too huge for names!

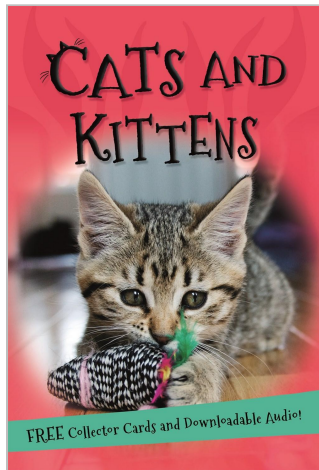

Includes an introduction by Kjartan Poskitt, author of the bestselling Murderous Math series.

Tracey Turner has written more than 70 books, most of them for children, on subjects including inventions, the universe, famous writers, and deadly perils. She is the author of Kingfisher's *How Many Mice Make an Elephant?* and *The Curious Book of Lists*. She also commissioned and edited the Horrible Histories series for many years.

Jen Khatun is an illustrator of Bangladeshi/Indian heritage who grew up in the UK. Ages 8 to 11

Hardcover with dust jacket 64 pages

9.5 in H | 6.9 in W

Carton Quantity: 0

ISBN: 9780753477076

\$16.99 / \$22.50 Can.

A celebration of women's soccer around the world.

Written by acclaimed YA novelist Cat Clarke and with a foreword by England captain Steph Houghton, *She Shoots, She Scores!* tells the empowering story of how women's soccer has become one of the fastest-growing sports in the world—and is sure to inspire the next generation of female soccer superstars.

Young soccer fans will discover how the early female players overcame prejudice to set up their own teams, and read the compelling stories of players who beat the odds to become famous around the world: including Scotland's Rose Reilly, Asisat Oshoala from Nigeria, and Afghanistan's Nadia Nadim. The book is packed with facts and stats about the Women's World Cup and the Olympics, plus pocket profiles of the world's top players—from Marta to Megan Rapinoe—and record-breaking teams, including the US national ...

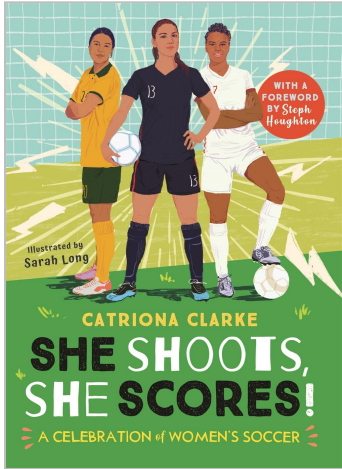

Cat Clarke is the bestselling, award-winning author of six YA novels, including *Letting Go* and *Girlhood*. She was born in Zambia and brought up in Edinburgh and Yorkshire, which has given her an accent that tends to confuse people. Cat lives in Edinburgh with her partner, two ninja cats and two decidedly non-ninja cocker spaniels. She likes cheese A LOT, especially baked camembert.

Sarah Long graduated from Cambridge School of Art in 2004. She started off her career at Caroline Gardner before moving into giftware, where she designed bags, ceramics and textiles from initial concept to final product. This also involved working with licensors designing products for The Beatles and Moomins.

Imagine you were there as the first pilgrims from England arrived onboard the *Mayflower*.

In November 1619 the *Mayflower*, with its cargo of pilgrim families, reached the shores of Massachusetts.

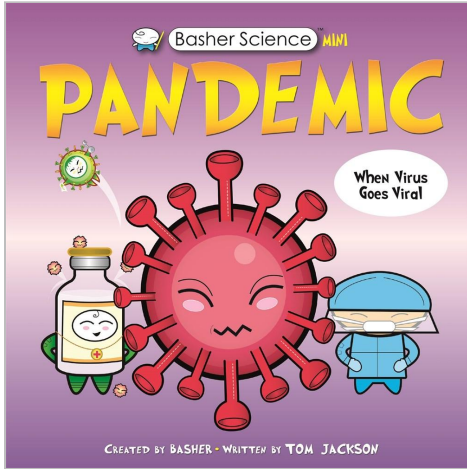

Imagine You Were There... Sailing on the Mayflower celebrates this milestone by helping readers imagine what it was like to actually be there. Fully illustrated, the book charts the voyage of the pilgrims from England via Holland, and chronicles their arrival in America and the founding of the Plymouth Colony. The book includes first-hand accounts of the voyage and early settler life, with the difficulties it brought. It also looks at the experiences of settlers in other parts of the world, and at some of the same issues that are relevant to modern-day immigrants.
