Basher Science: Climate Change

JANUARY

Kingfisher

Juvenile Nonfiction / Science & Nature / Earth Sciences

On Sale 1/6/2015

Ages 10 to 15, Grades 5 And Up

Trade Paperback 128 pages

7.000 in W | 7.000 in H | 1.000 lb Wt

Carton Quantity: 50

ISBN: 9780753471753

\$8.99 / \$10.50 Can.

Basher shines his light on climate change, bringing topical environmental concepts to life

Do you know your carbon cycle from your carbon footprint? Can you tell your greenhouse effect from your green house? And what exactly is a tipping point? If any of these questions leave you confused, then *Basher Science: Climate Change* is the book for you. From El Nino and hurricanes to deforestation and population growth of scale - this is a totally comprehensible guide to a fast-moving, essential topic.

Subjects covered in this book include: ice caps, the greenhouse effect, global warming, the butterfly effect, atmospheric systems, acid rain, ocean systems, acidification, fossil fuels, heat waves, urbanization, carbon footprint, recycling, renewable energy, biofuels, and nuclear power.

Simon Basher is the creator and illustrator of more than a dozen internationally bestselling books for children including the critically acclaimed Basher Science series.

Author **Dan Green** has written many of the titles in the Basher Science series. He has an MA in Natural Sciences from Cambridge University, where he specialized in geology.

Consultant **Kirk Allen Maasch** is Professor in the School of Earth and Climate Sciences and the Climate Change Institute at the University of Maine. He has over 20 years of experience in investigating the causes of climate change.

Basher Science: The Complete Periodic Table

All the Elements with Style!

JANUARY

Kingfisher

Juvenile Nonfiction / Science & Nature / Chemistry

On Sale 1/6/2015

Ages 10 to 14, Grades 5 to 9

Trade Paperback 192 pages

7.000 in W | 7.000 in H | 0.725 lb Wt

Carton Quantity: 50

ISBN: 9780753471975

\$11.99 / \$13.99 Can.

The original Basher book that started it all is back—and it's bigger and better than ever!

Do you confuse boron with barium or chlorine with fluorine? Fear not! Basher Science has come to the rescue by mixing science and art to create a unique periodic table. From unassuming oxygen to devious manganese, the incredible elements show you the periodic table as you've never seen it before.

Basher Science: The Periodic Table gives a face, voice and personality to the chemical elements, making learning chemistry easy and a whole lot more fun. This new expanded edition reflects the latest discoveries, and now each of the 115 elements has not just a picture but an information-packed page all to itself.

Basher's highly original books make difficult concepts tangible, understandable and even lovable. With his stylish, contemporary characters he communicates science brilliantly.

High school chemistry teacher Adrian Dingle is the creator of the award-winning chemistry Web site: adriandingleschemistrypages.com. His site has been recommended by the Eisenhower National Clearinghouse, the BBC, the National Science Teachers Association, and Cornell Theory Center—among many others. He now lives in Atlanta, Georgia, where he teaches at The Westminster Schools.

Dan Green has written many of the titles in the Basher Science series. He has an MA in Natural Sciences from Cambridge University, where he specialized in geology.

Artist and designer Simon Basher has fun playing in the world of contemporary character design. He lives in England.

Get Into Art Telling Stories

Enjoy Great Art--Then Create Your Own!

MARCH

Kingfisher

Juvenile Nonfiction / Art / General

On Sale 3/10/2015

Ages 7 to 14, Grades 2 to 9

Hardcover Picture Book 32 pages

9.000 in W | 10.625 in H | 1.000 lb Wt

Carton Quantity: 30

ISBN: 9780753471838

\$14.99 / \$17.50 Can.

Be inspired by works of art that have a story to tell

Get Into Art! Stories explores a fascinating array of pictures that tell stories. Works featured in this book range from battle scenes to fairy tales, and are depicted by artists as diverse as Edward Hopper, Matisse, and the creators of the Bayeux Tapestry.

A gorgeous, award-winning art series that explores a wide range of artists' work while encouraging children to develop their own skills and techniques. *Get into Art* is perfect for active young artists of all abilities. Each book features twelve artworks, with information about the work and the artist. Art projects are varied, intriguing and clearly explained, and will act as a springboard for plenty of artistic experiments.

Susie Brooks has a first class history of art degree and has worked as an editor and writer of children's non-fiction and picture books for over ten years. She's an artist herself and does occasional art workshops with young children.

Susie Brooks is also the creator of the artwork projects in this book.
