Basher's *US Presidents* shows you the nation's leaders as you've never seen them before.

Every president, from George Washington to the winner of the 2016 election, has his own entry and speaks directly to the reader. Often humorous, these lively and enlightening articles bring history to life.

Meet James Monroe, known as the "Last Coked Hat" because he pranced around in an outdated wig, hat, and breeches! Learn more about "Uncle Jumbo" (better known as Grover Cleveland): the only president to serve two non-consecutive terms. Find out how Ronald Reagan helped end the Cold War. Quirky facts add interest. Did you know that John Quincy Adams had a pet alligator? That Teddy Roosevelt (and his whole family) could walk on stilts? Or that Lyndon B. Johnson had worked as an elevator operator? Read this book, and you'll soon be on personal terms with every single US Head Honcho to date. Includes a mu...

Dan Green is the voice of Basher, the author of numerous Basher titles. He's a journalist and science writer with a brilliant knack for communicating complicated information in a child-friendly way. Two of his titles, Kingfisher's *Human Body Factory* and Scholastic's *Discover More: The Elements*, were shortlisted for the Royal Society Young People's Book Prize 2013. Dan has an MA in Natural Sciences from Cambridge University, UK, where he specialized in geology.

Simon Basher is the creator and illustrator of more than a dozen internationally best-selling books for children, including the critically acclaimed *Basher Science* series which has sold over 2.5 million copies around the world.

The latest in the Basher universe looks at the machines and buildings in our everyday world, and discovers how they are made and work

How does a 3D printer work? What stops a skyscraper from falling over? Where does a smart phone store information?

Welcome to the world of engineering! Discover how the familiar machines and buildings in today's world are constructed, and how they function. How do scientists choose the right materials for the right job? Which scientific principles lie behind each machine or structure?

Basher's highly original books explain difficult scientific concepts in ingenious ways, making them tangible, understandable and even lovable. Chatty first-person text and stylish, contemporary character illustrations give a voice, personality, and story to each topic -- it's a truly brilliant way to communicate science.

Tom Jackson is a highly experienced science writer and editor who has written books for Dorling Kindersley, Scholastic, National Geographic, and Hachette. He has written five titles in the best-selling DK series Eyewitness Science, including *Computer* and *Science*. His other titles include *How to Build a Human Body* (Scholastic, 2013) and his recent book on the history, science, and technology behind refrigerators, *Chilled* (Bloomsbury, 2015). Tom lives in Bristol, England.

This highly popular and long-running series has been revamped for a new generation of readers, with a clean, crisp redesign and colorful covers. The series explores questions that young readers ask about the world around them in an unrivaled child-friendly style. The conversational format is perfect for delivering solid information in a natural, amusing and imaginative way.

Illustrated with stunning, high-quality artwork, a wealth of information is backed up with fun facts and lively cartoons. How do mountains form? Where is the world's highest mountain? Who lives in the mountains? Discover the answers to these questions and much, much more.

Jackie Gaff has over 20 years' experience in illustrated books for children. Previously a non-fiction editor, she is now a full-time author with a real commitment to, and enthusiasm for, creating books that children both want and are able to read.

Four mini-books with 24 favorite illustrated stories from the Old Testament in a handy slipcase

There are four books in this pocket-sized slipcase:

Adam and Eve and other stories

Moses in the Reeds and other stories

David and Goliath and other stories

Daniel and the Lions and other stories

Each mini book contains six stories from the Old Testament - read the first three stories, then flip the book to read the second three. These bible stories have been carefully rewritten and brought to life with vivid illustrations, and are an ideal gift for Christmas, Easter, and First Communion.
