Willie Mays has inspired a game, a nation and many a generation. There's a statue in his likeness at 24 Willie Mays plaza, home of the San Francisco Giants' ballpark, where 24 palm trees surround the statue and the right-field brick wall stands 24 feet high. On his 85th birthday, he was honored when San Francisco cable car number 24 was dedicated to him.

Now 87, he's telling his story with new and different perspective. This is a one-of-a-kind journey with Willie as tour guide that encompasses an inspirational perspective while exploring and capturing his legacy and getting deeper into the personality and the man.

As backdrops to the inspirational theme, Willie will share timeless stories about staring down Satchel Paige in a Negro League face-off, missing his senior prom to catch a train to join the Giants' organization, standing on deck as a frightened rookie during the Shot Heard 'Round the World, making the most miraculous catch in World Series history, winning MVP awards as a New York Giant and San Francisco Giant, returning to New York to conclude his career as a Met and appearing in a World Series in his final season, 22 years after appearing in a World Series in his first one.

Today, Willie attends every San Francisco Giants home game, was a prevalent figure during the team's World Series championship runs in 2010, 2012, and 2014 and still engages with players in the clubhouse. He was the first recipient of the Roberto...

# How Not to Diet

*The Groundbreaking Science of Healthy, Permanent Weight Loss*

Michael Greger M.D.

Every month seems to bring a trendy new diet or a new fad to try in order to lose weight – but these diets clearly aren't making us any healthier. As obesity rates continue to rise, and with it a growing number of diseases and impairments, it's time for a different approach.

Enter Dr. Michael Greger, the internationally-renowned nutrition expert, physician, and founder of [nutritionfacts.org](http://nutritionfacts.org). Having explored the top 15 causes of death in his bestselling *How Not to Die*, Dr. Greger now turns his attention to the latest scientific research on the leading causes of obesity. He lays the groundwork by exploring the many causes of obesity – from our genes to the portions on our plate to other environmental factors – and the many consequences, from diabetes to cancer to mental health issues.

From there, Dr. Greger breaks down a variety of approaches to weight loss, honing in on the optimal criteria that enable success, including: a diet high in fiber and water, a diet low in fat, salt, and sugar, and diet full of anti-inflammatory foods.

But *How Not to Diet* goes beyond food to explore the many other weight-loss accelerators available to us in our body's systems, revealing how plant-based meals can be eaten at specific times to maximize our bodies' natural fat-burning activities. It provides a clear plan not only for the ultimate weight loss diet, but also the approach we must take to that diet to unlock its greatest efficacy.

## Nothing Ventured

Jeffrey Archer

**#1 New York Times bestseller Jeffrey Archer launches a brilliant new series — a spinoff from the mega-successful Clifton Chronicles — about Detective William Warwick. *But this is not a detective ...***

Jeffrey Archer's Clifton Chronicles reinvigorated his already-illustrious career to the highest sales level in a decade, and now Archer launches a brand-new family saga tailor-made for Clifton fans: the life story of William Warwick. William is a new recruit in the London Metropolitan Police Force, and his father is a distinguished judge. Rather than follow in his father's footsteps, the way his sister has, William has always wanted to be a detective.

This series debut audiobook traces William's complicated relationships with his family; the origins of his career; his first mentor, career police officer Fred Yates; his first months on the beat; and his first case as a detective, an investigation into an art theft ring which has continually outsmarted Scotland Yard. It also introduces the series villains, ruthless art collector Miles Faulkner and his defense attorney, Booth Watson.

As with the Clifton Chronicles, the Warwick audiobooks tell the story of a man, a family, and an era of our times in the way only Jeffrey Archer can. His legions of fans will be enthralled through each volume, as we follow William's life, through his career, his love life, his family, and the many triumphs and tragedies of each.

### PRAISE

**"The writing and characterizations are superb...A splendid novel, featuring one of Archer's most elegantly told stories." – *Booklist* (starred review) on *Heads You Win***

**"Archer continues his storytelling magic to create characters of spellbinding substance, and readers can count on his surprising twists and shocking conclusion. Here, just when the end seems too tidy, Archer provides a killer cliffhanger." — *Publishers Weekly* on *Cometh the Hour***

**"Archer knows how to dole out tiny crumbs of suspense right up to the last page, which ends with...a really excellent cliffhanger." — *Washington Post* on *Only Time Will Tell***

JEFFREY ARCHER was educated at Oxford University. He served five years as a Member of Parliament in the House of Commons and has served twenty-six years as a Member of the House of Lords. Now published in 97 countries and more than 37 languages, all of his novels and short story collections—including *Kane & Abel*, *Only Time Will Tell* and *This Was a Man*—have been international bestsellers. Jeffrey is married with two sons and three grandchildren, and lives in London, Cambridge and Majorca.

## Defending Israel

*The Story of My Relationship with My Most Challenging Client*

Alan M. Dershowitz

**World-renowned lawyer Alan Dershowitz recounts stories from his many years of defending the state of Israel.**

Alan Dershowitz has spent years advocating for his "most difficult client"—the state of Israel—both publicly and in private meetings with high level international figures, including every US president and Israeli leader of the past 40 years. Replete with personal insights and unreported details, *Defending Israel* offers a comprehensive history of modern Israel from the perspective of one of the country's most important supporters. Listeners are given a rare front row seat to the high profile controversies and debates that Dershowitz was involved with over the years, even as the political tides shifted and the liberal community became increasingly critical of Israeli policies.

Beyond documenting America's changing attitude toward the country, *Defending Israel* serves as an updated defense of the Jewish homeland on numerous points—though it also includes Dershowitz's criticisms of several decisions and policies that he believes to be unwise. At a time when Jewish Americans as a whole are increasingly uncertain as to who supports Israel and who doesn't, there is no better audiobook to turn to for answers—and a pragmatic look toward the future.

ALAN DERSHOWITZ is a world-renowned author, criminal lawyer, law professor, and civil liberties defender. He is the author of more than twenty books, and his writing has been praised by literary figures from Truman Capote to Elie Wiesel. His books have sold over a million copies total, and over a million people have heard him lecture. He lives in New York City.

## Toil & Trouble

*A Memoir*

Augusten Burroughs; read by the author

**From the number one *New York Times* bestselling author comes another stunning memoir that is tender, touching...and just a little spooky.**

"Here's a partial list of things I don't believe in: God. The Devil. Heaven. Hell. Bigfoot. Ancient Aliens. Past lives. Vampires. Zombies. Homeopathy. Note that "witches" and "witchcraft" are absent from this list. When really they should be right there at the top. The thing is, I wouldn't believe in them, and I would privately ridicule any idiot who did, except for one thing: I am a witch." —From *Toil & Trouble*

For as long as Augusten Burroughs could remember, he knew things he shouldn't have known. He manifested things that shouldn't have come to pass. And he told exactly no one about this, save one person: his mother. His mother reassured him that it was all perfectly normal, that he was descended from a long line of witches, going back to the days of the Pendle witches of Lancashire, England. It was a bond that he and his mother shared - until the day she left him in the care of her psychiatrist to be raised in his family (but that's a whole other story). After that, Augusten was on his own. From the hilarious to the terrifying, *Toil & Trouble* is a chronicle of one man's journey to understand himself, to reconcile the powers he can wield with things with which he is helpless. There are very few coincidences, as you will learn. Ghosts are real, trees can want to kill you, beavers are the spawn of Satan, houses are alive, and in the end, love is the most powerful magic of all.

## Our Better Angels

*Seven Simple Virtues that Will Change Your Life and the World*

Jonathan Reckford

**For listeners of *Make Your Bed*, an audiobook about real-life virtues in action — from Habitat for Humanity, one of the world’s most admired organizations.**

In his first-ever audiobook, Habitat for Humanity CEO Jonathan Reckford shares moving and inspiring stories of ordinary people whose lives have been changed by working together to help one another. And he shows what we can all learn from these everyday heroes.

Having witnessed people beat back the storms of life, Reckford came to see how we can all find our better selves by tapping into seven old-fashioned virtues—kindness, generosity, community, empowerment, respect, joy, and service. And he came to see how the strength gained from these virtues can help each of us build our best selves in ways that impact all areas of our lives—from our careers to our families, from how we behave in our communities to how we see the world.

With a separate chapter devoted to each of these seven virtues, Reckford introduces us to remarkable people Habitat has served, like Jed, whose family received a Habitat home and who could barely wait to donate it back Habitat to help others in need. And we also meet volunteers like Vic, a veteran who was inspired to return to Vietnam to help build housing there. Each vivid story in this audiobook carries its own lesson and epiphany – to help listeners find their own better angels.

Since 1976, Habitat for Humanity has helped more than five million people in over seventy countries. More than two million people volunteer every year with Habitat.

Jonathan Reckford has served as chief executive officer of Habitat for Humanity International since 2005. Under his leadership, Habitat has gone from helping 25,000 families annually to more than 300,000. A graduate of the University of North Carolina at Chapel Hill, Reckford earned his MBA from Stanford and went on to managerial positions at Goldman Sachs, Marriott, Walt Disney Company, and Best Buy. Reckford also served as executive pastor of Christ Presbyterian Church in Edina, Minnesota. In ...

# The Name of All Things

Jenn Lyons

For fans of Brandon Sanderson and Patrick Rothfuss, *The Name of All Things* is the second installment in Jenn Lyons' Chorus of Dragons series that began with *The Ruin of Kings*.

You can have everything you want if you sacrifice everything you believe.

Kihrin D'Mon is a wanted man.

Since he destroyed the Stone of Shackles and set demons free across Quur, he has been on the run from the wrath of an entire empire. His attempt to escape brings him into the path of Janel Theranon, a mysterious Joratese woman who claims to know Kihrin.

Janel's plea for help pits Kihrin against all manner of dangers: a secret rebellion, a dragon capable of destroying an entire city, and Kihrin's old enemy, the wizard Relos Var.

Janel believes that Relos Var possesses one of the most powerful artifacts in the world—the Cornerstone called the Name of All Things. And if Janel is right, then there may be nothing in the world that can stop Relos Var from getting what he wants.

And what he wants is Kihrin D'Mon.

## What Rose Forgot

Nevada Barr

**Rose, a grandmother in her sixties, emerges from a mental fog to find she's trapped in her worst nightmare—someone has kept her drugged and committed her to an Alzheimer's Unit.**

Rose Dennis wakes up in a hospital gown, her brain in a fog, only to discover that she's been committed to an Alzheimer's Unit in a nursing home. With no memory of how she ended up in this position, Rose is sure that something is very wrong. When she overhears one of the administrators saying about her that she's "not making it through the week," Rose is convinced that if she's to survive, she has to get out of the nursing home. She avoids taking her medication, putting on a show for the aides, then stages her escape.

The only problem is—how does she convince anyone that she's not actually demented? Her relatives were the ones to commit her, all the legal papers were drawn up, the authorities are on the side of the nursing home, and even she isn't sure she sounds completely sane. But any lingering doubt Rose herself might have had is erased when a would-be killer shows up in her house in the middle of the night. Now Rose knows that someone is determined to get rid of her.

With the help of her computer hacker/recluse sister Marion, thirteen-year old granddaughter Mel, and Mel's friend Royal, Rose begins to gather her strength and fight back—to find out who is after her and take back control of her own life. But someone out there is still determined to kill Rose, and they're holding all the cards.

## The Fifth Column

Andrew Gross; read by Edoardo Ballerini

**New York Times bestseller Andrew Gross delivers a gripping WWII thriller about a down-on-his-luck New Yorker who uncovers a secret Nazi spy ring planning an attack here in the States.**

New York City, 1941: Charles Mossman has lost his job, his wife, and his prospects after a short stint in prison for a bar fight gone awry. The only bright spots in his life are the afternoons he spends with his daughter after school, picking her up from the nanny who watches her and delivering her home before his wife gets home from her factory job in the evenings.

But one day he meets the elderly Swiss couple living next door to his wife, Mr. and Mrs. Bauer, and something seems...not right about them. Maybe it's the German they're teaching his daughter, maybe it's all of the strangers he sees going in and out of their apartment. Though they claim to be as distraught over Hitler's actions in Europe as other Americans, he's not sure he believes them, and soon, he is convinced that there's more to these people than meets the eye. And he's determined to find out what's really going on.

What he finds could not only endanger his daughter but also all of New York City. As the shadow of war creeps closer to the States, one man has the ability to bring down a nest of Nazi spies doing Hitler's work in America. Based on the true story of the Duquense Spy Ring, Gross's once again delivers a tense, stirring thriller set against the backdrop of a nation about to go to war.

## An Irish Country Family

Patrick Taylor

**A charming entry in Patrick Taylor's beloved internationally bestselling Irish Country series.**

Before Doctor Barry Laverty joined Doctor Fingal O'Reilly's practice in the colorful Irish village of Ballybucklebo, he was a medical student, working long hours, practicing new medical techniques, falling in love, and learning what is most important in the medical field for a family physician—the bonds of family, friendships, and human kindness.

Years later, Barry practices everything he has learned in Ballybucklebo, a lovely village where neighbor looks after neighbor. And while his own efforts to start a family with his wife Sue have been frustrated, the community around him couldn't be stronger as they work together to show their unity to the rest of Ireland.

Shifting effortlessly between the two time periods, bestselling author Patrick Taylor continues the story of these beloved characters while vividly bringing the daily joys and struggles of this delightful Irish village to life.

## We Are the Weather

Jonathan Safran Foer; read by the author

Some people reject the fact, overwhelmingly supported by scientists, that our planet is warming due to human activities. But do those of us who accept the reality of human-caused climate change truly believe in it? If we did, surely we would be roused to act, to make sacrifices now to prevent calamity in the future. How are we, ordinary civilians, supposed to do anything about a crisis for which we can barely sustain concern, of which our understanding is so incomplete, and from which we cannot imagine an escape?

In *TITLE TK*, Jonathan Safran Foer explores the central dilemma of our time in a surprising, creative, and urgent new way. We have, he reveals, turned our planet into a farm for growing meat, and the consequences are catastrophic. With the future of our home at stake, the time has come to consider how our descendants will judge our actions at this crucial moment. Collective change is needed. We might be able to pull it off—and it all starts with what we eat, and don't eat, for lunch.

## No Ordinary Dog

*My Partner from the SEAL Teams to the Bin Laden Raid*

Willard Chesney with Joe Layden

**The powerful true story of a SEAL Team Six member and military dog handler, and the dog that saved his life.**

Two dozen Navy SEALs descended on Osama bin Laden's compound in May 2011. After the mission, only one name was made public: Cairo, a Belgian Malinois and military working dog. This is Cairo's story, and that of his handler, Will Chesney, a member of SEAL Team Six whose life would be irrevocably tied to Cairo's.

Starting in 2008, when Will was introduced to the DEVGRU canine program, he and Cairo worked side by side, depending on each other for survival on hundreds of critical operations in the war on terrorism. But their bond transcended their service.

As Cairo aged and participated in fewer missions, Will moved on to other assignments, forced to slowly—and painfully—distance himself from the dog. Then, in 2011, the call came: *Pick up your dog and get back to Virginia. Now.*

What followed were several weeks of training for a secret mission, the details of which were not immediately revealed. But it soon became clear that this was no ordinary operation. Cairo was among the first members of the U.S. military on the ground in Pakistan as part of Operation Neptune Spear, which resulted in the successful elimination of bin Laden.

As Cairo settled into a role as a reliable “spare dog,” Will went back to his job as a DEVGRU operator, until a grenade blast in 2013 left him with a brain injury and PTSD. Unable to participate in further missions, he suffered from crippling migraines, chronic pain, memory issues, and depression. Modern...

WILL CHESNEY and served as a SEAL in multiple deployments around the globe as a member of the elite United States Naval Special Warfare Development Group (DEVGRU), serving as both an operator and a handler of military working dogs. He and his dog, a Belgian Malinois named Cairo, took part in hundreds of missions together, including Operation Neptune Spear, which resulted in the death of Osama bin Laden. A grenade explosion ultimately led to Chesney's retirement in 2015 after 13 years of dedicate...

**A dynamic four-step plan for ordinary people to reach any goal by a former NFL All-Pro, playwright, and acclaimed motivational speaker to Fortune 500 companies.**

At nine years old, Bo Eason made a promise to himself that he would become a professional football star. Nobody thought he could do it - as a scrawny kid, he was at first rejected by both his high school and college teams. But he went all in on his dream, was drafted by the Houston Oilers in 1984, and became an All-Pro safety. When his football career was cut short by injuries, he decided he wanted to become a stage actor. Again, he was told he didn't have the chops to make it happen. But he rehearsed constantly, talked his way into a meeting with Al Pacino for acting tips, and later wrote and acted in a one-man play that the *NYT* called "one of the most powerful plays in the last decade."

Then he set himself the goal of teaching others how to achieve their goals, and is now one of the most in-demand motivational speakers in the world. How did he do these seemingly impossible things? Simply by believing in his own ability, developing the skills, and not stopping until he achieved his goals. *There's No Plan B for Your A-Game* focuses on a winning four-step process:

**Declaration:** what do you want to achieve?

**Preparation:** how can you make it happen?

**Acceleration:** how will you find the motivation to achieve your goal?

**Domination:** how do you take others with you?

Bo Eason proves that anyone has the ability to make a huge life change if they make the commitment and put the work in.

# One Step Ahead

*The Counterintuitive Science of Negotiation*

David Sally

**Why everything you've learned about negotiating is wrong, and how to do it right, by an acclaimed teacher and practitioner of the art.**

For the last twenty years, David Sally has taught negotiation at leading business schools and to executives at top companies worldwide, and now he wants to share his secrets and the science behind them. Negotiation, he argues, is best thought of as a strategic game in which you should be exactly one step ahead of your opponent.

Drawing parallels to everything from the NBA to the corner con game and rooted in Sally's own breakthrough research, *One Step Ahead* introduces a revolutionary way of approaching negotiation. Listeners will learn:

- When and when *not* to negotiate
- How to be an effective performer during your negotiation
- How to lead the negotiation
- Which of your personality traits will help you in a negotiation and how to cultivate them
- How to be tough and fair
- How gender affects the way we negotiate and how to overcome it

Through the stories of quirky and often misunderstood historical characters—all high-level social operatives—Sally delivers negotiation tactics that upend conventional wisdom and offers a new and nuanced approach that applies in any situation. We'll see how thinkers from Machiavelli to Gandhi made invaluable contributions to the science of negotiation and how master negotiators, such as Chicago billionaire Sam Zell and wartime hostage negotiator Giadomenico Picco, honed their craft.

*An Eve Dallas Novel (In Death, Book 49)*

J. D. Robb; read by Susan Ericksen

**The predator becomes the prey in the newest thriller in the #1 *New York Times* bestselling series featuring homicide detective Eve Dallas.**

She calls herself Lady Justice. And once she has chosen a man as her target, she turns herself into a tall blonde or a curvaceous redhead, makes herself as alluring and seductive as possible to them. Once they are in her grasp, they are powerless.

The first victim is wealthy businessman Nigel McEnroy. His company's human resources department has already paid out settlements to a couple of his young victims—but they don't know that his crimes go far beyond workplace harassment. Lady Justice knows. And in one shocking night of brutality, she makes him pay a much steeper price.

Now Eve Dallas and her husband, Roarke, are combing through the evidence of McEnroy's secret life. His compulsive need to record his misdeeds provides them with a wide range of suspects, but the true identity of Lady Justice remains elusive. It's a challenging case, made even more difficult by McEnroy's widow, who reacts to the investigation with fury, denial, and threats. Meanwhile, Lady Justice's criminal crusade is escalating rapidly, and if Eve can't stop this vigilante, there's no telling how much blood may be spilled...

## Ninth House

Leigh Bardugo

**The brilliant, fantastical adult debut from #1 *New York Times* bestselling author Leigh Bardugo.**

Galaxy “Alex” Stern is the most unlikely member of Yale’s freshman class. Raised in the Los Angeles hinterlands by a hippie single mom, Alex dropped out of school early and into a world of shady drug dealer boyfriends, dead end jobs, and much, much worse. By age twenty, in fact, she is the sole survivor of a horrific, unsolved triple homicide. Some might say she’s thrown her life away. But at her hospital bed, Alex is offered a second chance: to attend one of the world’s most elite universities on a full ride.

What’s the catch, and why her? Still searching for answers to this herself, Alex arrives in New Haven tasked by her mysterious benefactors with monitoring the activities of Yale’s secret societies. These eight windowless “tombs” are well-known to be haunts of the future rich and powerful, ranging from Jodie Foster to George W. Bush. But their occult activities are revealed to be more sinister and more supernatural than any paranoid imagination might conceive.

NINTH HOUSE is the mesmerizing adult debut by the beloved author of SHADOW AND BONE and CROOKED KINGDOM. Leigh Bardugo will take her place alongside Lev Grossman, Deborah Harkness, and Neil Gaiman as one of the finest practitioners of adult fantasy writing today.
