## Each of Us a Desert

Mark Oshiro

**From award-winning author Mark Oshiro comes a powerful coming-of-age fantasy novel about finding home and falling in love amidst the dangers of a desert where stories come to life**

Xochitl is destined to wander the desert alone, speaking her troubled village's stories into its arid winds. Her only companions are the blessed stars above and enigmatic lines of poetry magically strewn across dusty dunes.

Her one desire: to share her heart with a kindred spirit.

One night, Xo's wish is granted—in the form of Emilia, the cold and beautiful daughter of the town's murderous conqueror. But when the two set out on a magical journey across the desert, they find their hearts could be a match... if only they can survive the nightmare-like terrors that arise when the sun goes down.

Fresh off of *Anger Is a Gift's* smashing success, Oshiro branches out into a fantastical direction with their new YA novel, *Each of Us a Desert*.

Sarah Goodman

**An evocative YA historical fantasy thriller by debut author Sarah Goodman, for fans of Jennifer Donnelly and Libba Bray**

MADNESS, SECRETS, AND THE LENGTHS WE'LL GO TO KEEP THEM BURIED

*Wheeler, Arkansas, 1907*

When her father descends into madness, Verity Pruitt and her little sister Lilah find themselves uprooted from New York, on an orphan train to rural Arkansas.

In Wheeler, Lilah is quickly adopted by the town's beloved schoolteacher—but Verity is not. Willing to do anything to stay close, she pawns herself off as a farmhand, but even charming farm boy Abel Atchley can't completely distract her from the sense that something is not quite right in this little town. Strange local superstitions abound, especially about the eerie old well at the center of the forest. The woods play tricks, unleashing heavy fog and bone-chilling cold...and sometimes visions of things that aren't there.

But for Verity, perhaps most unsettling of all is the revelation that her own parents have a scandalous history in this very town. And as she tries to unearth the past, sinister secrets come with it—secrets that someone will go to violent lengths to protect.

# A Neon Darkness

Lauren Shippen

**The second stand-alone Bright Sessions novel that asks: “What if the X-Men, instead of becoming superheroes, decided to spend some time in therapy?” (Vox)**

Robert Gorham always gets what he wants. But the power of persuasion is as potent a blessing as it is a curse.

Robert is alone until a group of strangers who can do impossible things—produce flames without flint, conduct electricity with their hands, and see visions of the past—welcome him. They call themselves *Unusuals* and they give Robert a new name too: DAMIEN.

Finally, *finally* he belongs. As long as he can keep his power under control.

But control is a sacrifice he might not be willing to make.

## The Infinite Noise

*A Bright Sessions Novel*

Lauren Shippen

**A YA debut that asks: “What if the X-Men, instead of becoming superheroes, decided to spend some time in therapy?” (Vox)**

Caleb Michaels is your average sixteen-year-old. He goes to school, plays football, teases his little sister. But when Caleb starts experiencing mood swings that are out of the ordinary even for a teenager, his life moves beyond “typical.”

Caleb is an Atypical, an individual with enhanced abilities. Which sounds pretty cool except Caleb's ability is extreme empathy—he feels the emotions of everyone around him. Being an empath in high school would be hard enough, but Caleb's life becomes even more complicated when he keeps getting pulled into the emotional orbit of one of his classmates, Adam. Adam's feelings are big and all-consuming, but they fit together with Caleb's feelings in a way that he can't quite understand.

Caleb's therapist, Dr. Bright, encourages Caleb to explore this connection by befriending Adam. As he and Adam grow closer, Caleb learns more about his ability, himself, his therapist—who seems to know a lot more than she lets on—and just how dangerous being an Atypical can be.

**The thrills, drama, and intrigue continue in this second installment of the Origin series from #1 *New York Times* bestselling author Jennifer L. Armentrout**

When Evelyn Dasher crossed paths with Luc, she was thrown headfirst into the world of the Lux—only to discover that she was already far more involved in their world than she ever suspected.

Because the Luxen aren't the only ones with a hidden past. There's a gap in Evie's memory, lost months of her life and a lingering sense that something happened, something she can't remember and nobody is willing to tell her. She needs to find out the truth about who she is—and who she was. But every answer she finds only brings up more questions.

Her search for the truth brings her ever closer to Luc, the Origin at the center of it all. He's powerful, arrogant, inhumanly beautiful, extremely dangerous... and possibly in love with her. But even as Evie falls for him, she can't help but wonder if his attraction is to her, or to the memory of a girl who no longer exists.

And all the while, a new threat looms: reports of a flu-like, fatal virus that the government insists is being spread by Luxen. A horrifying illness that changes whoever it touches, spreading panic across a country already at its breaking point.

**The powerful and poignant story of a transgender girl and an abandoned dog: "The Higher Power of Lucky meets Shiloh"\***

When her father leaves and her mother passes away soon afterward, Finch can't help feeling abandoned. Now she's stuck living with her stepfather and his new wife. They're mostly nice, but they don't believe the one true thing Finch knows about herself: that she's a girl, even though she was assigned male at birth.

Thankfully, she has Maddy, a neighbor and animal rescuer who accepts her for who she is. Finch helps Maddy care for a menagerie of lost and lonely creatures, including a scared, stray dog who needs a family and home as much as she does. As she earns the dog's trust, Finch realizes she must also learn to trust the people in her life—even if they are the last people she expected to love her and help her to be true to herself.

Magic. Adventure. Romance. War. ...Welcome to the Witchlands.

On a continent ruled by three empires, many people are born with a “witchery,” a magical skill that sets them apart from others. Some command the wind, some the water, some fire, some metal. And some can master the truth, or time, or even death itself.

***Truthwitch:*** Truthwitch Safiya and Threadwitch Iseult just want to be free to live their own lives, but war is coming to the Witchlands. With the help of the cunning Prince Merik and the hindrance of a Bloodwitch bent on revenge, the friends must fight emperors, princes, and mercenaries alike.

***Windwitch:*** After an explosion destroys his ship, the world believes Prince Merik, Windwitch, is dead. Scarred yet alive, Merik is determined to prove his sister’s treachery. In a land of pirates, every moment balances on a knife's edge—especially when the pirates' next move could unleash war upon the Witchlands.

***Bloodwitch:*** Bloodwitch Aeduan and Threadwitch Iseult team up and race for safety as the Raider King's attempts to subdue the Witchlands gain momentum. But Lady Fate's knife comes for us all, and Aeduan can no longer hide from his past.
