A School for Unusual Girls

A Stranje House Novel

Kathleen Baldwin

The launch of a captivating new YA series set in Regency England that #1 *New York Times* bestselling author Meg Cabot calls “completely original and totally engrossing”

It’s 1814. Napoleon is exiled on Elba. Europe is in shambles. Britain is at war on four fronts. And Stranje House, a School for Unusual Girls, has become one of Regency England’s dark little secrets. The daughters of the *beau monde* who don’t fit high society’s constrictive mold are banished to Stranje House to be reformed into marriageable young ladies. Or so their parents think. In truth, Headmistress Emma Stranje, the original unusual girl, has plans for the young ladies—plans that entangle the girls in the dangerous world of spies, diplomacy, and war.

After accidentally setting her father’s stables on fire while performing a scientific experiment, Miss Georgiana Fitzwilliam is sent to Stranje House. But Georgie has no intention of being turned into a simpering, pudding-headed, marriageable miss. She plans to escape as soon as possible—until she meets Lord Sebastian Wyatt. Thrust together in a desperate mission to invent a new invisible ink for the English war effort, Georgie and Sebastian must find a way to work together without losing their heads—or their hearts....

The League of Seven

Alan Gratz; Illustrated by Brett Helquist

**"Action, banter, and steampunk-style tech aplenty—plus truly icky foes—make this an appealingly fast-paced trilogy opener."
—Kirkus Reviews**

Archie Dent knows there really are monsters in the world. His parents are members of the Septemberist Society, whose job it is to protect humanity from hideous giants called the Mangleborn. Trapped in underground prisons for a thousand years, the giant monsters have been all but forgotten—but now they are rising again as the steam-driven America of 1875 rediscovers electricity, the lifeblood of the Mangleborn. When his parents and the rest of the Septemberists are brainwashed by one of the evil creatures, Archie must assemble a team of seven young heroes to save the world.

PRAISE

"An enticing alternate history presents an America in which Native tribes have as much power and presence as Yankees, with politics of their own to navigate. Gratz has created an imaginative world with appeal far beyond its immediate middle-grade market."

—*Publishers Weekly*

"This hybrid of steampunk and alternate American history features a hell-raising girl's school, Atlantis, and three highly likable leads in a yarn rip-roaring from start to finish." —*Booklist*

"Gratz works an unusual twist into the familiar teens-saving-the-Earth-from-monsters trope: The protagonist is both archetypal hero and, at least potentially, nemesis."

—*Kirkus Reviews*

ALAN GRATZ is the author of several books for children and teens, including *Samurai Shortstop*, an ALA 2007 Top Ten Book for Young Adults. He began writing The League of Seven series by listing all the things that ten-year-old Alan would have thought were awesome, including brass goggles, airships, tentacled monsters, brains in jars, windup robots, secret societies, and super powers. The Nightmare Dilemma

Mindee Arnett

The second in a thrilling new fantastical mystery series

Dusty Everhart might be able to predict the future through the dreams of her crush, Eli Booker, but that doesn't make her life even remotely easy. When one of her mermaid friends is viciously assaulted and left for dead, and the school's jokester, Lance Rathbone, is accused of the crime, Dusty's as shocked as everybody else. Lance needs Dusty to prove his innocence by finding the real attacker, but that's easier asked than done. Eli's dreams are no help, more nightmares than prophecies.

To make matters worse, Dusty's ex-boyfriend has just been acquitted of conspiracy and is now back at school, reminding Dusty why she fell for him in the first place. The Magi Senate needs Dusty to get close to him, to discover his real motives. But this order infuriates Eli, who has started his own campaign for Dusty's heart.

As Dusty takes on both cases, she begins to suspect they're connected to something bigger. And there's something very wrong with Eli's dreams, signs that point to a darker plot than they could have ever imagined.

Seed Seeker

Pamela Sargent

The stand-alone sequel to *Earthseed*, a classic YA science fiction adventure that has been optioned as a major motion picture

Acclaimed SF writer Pamela Sargent's book, *Earthseed*, told the story of Ship, a sentient starship that settled humans on the planet Home before leaving to colonize other worlds, promising to return one day. This classic YA science fiction adventure, optioned by Paramount Pictures, will be produced by the adaptor of the Twilight series. The adventure continues in *Earthseed*'s stand-alone sequel, *Seed Seeker*.

Over time, the colony of Home divided into those who live in the original domed buildings of the colony, who maintain the library and technology of Ship, and those who live by the river, farming and hunting to survive. The Dome Dwellers consider themselves the protectors of "true humanity" and the River People as "contaminated." For many years, the two populations interact solely through ritualized trade.

Then a new light appears in the night sky. The River People believe it might be Ship, keeping its promise to return, but the Dome Dwellers, who have a radio to communicate with Ship, are silent, so Bian, a seventeen year old girl from a small village, travels upriver to learn what they know. As she travels, Bian ponders why the Dome Dwellers have said nothing. Has Ship commanded them to be silent, in preparation of some judgment on the River People? Or are the Dome Dwellers lying to Ship and turning Ship against their rivals?

Seed Seeker is an adventure in colonization and conflict from a master of the SF field.

"An engaging story about growing up in a world with a history of conflict... I highly recommend *Seed Seeker* if you're looking for a book about post-humanity that explores what would happen if humans used biotechnology to return to their humble, agrarian roots." —Annalee Newitz, io9

PAMELA SARGENT is the author of many highly praised novels, including *Earthseed*, chosen as a Best Book for Young Adults by the American Library Association in 1983.
