Patrick Taylor

An Irish Country Love Story

The eleventh heartwarming installment in Patrick Taylor's beloved and bestselling series!

It's the winter of 1967, and snow is on the ground in Ballybucklebo. For decades, ever since the War, Number One Main Street, Ballybucklebo, has housed Dr. Fingal O'Reilly and his practice. In recent years, it has also opened its doors to O'Reilly's wife, Barry Lavery, and a new addition to the practice, Doctor Nonie Stevens, a sultry and occasionally prickly young woman who may not be fitting in as well as she should. It is to Number One that patients young and old come when they need a doctor's care, for everything from the measles to a rare and baffling blood disease.

An unexpected turn of events threatens to drive O'Reilly from his home for good, unless the entire village can rally behind their doctor and prove that love really can conquer all.

This book marries the two by providing a compelling scientific explanation for apparently paranormal events.

* **PROMOTIONAL OPPORTUNITY:** Strong marketing and promotional opportunities center around creator Fabrizio Boccardi, who plans on actively contributing to our efforts with funds of his own.

"A rip-roaring story grounded in science. If you like my books, or Michael Crichton's, or similar science-based thrillers, then this is the book for you. A terrific read!" —Douglas Preston, #1 *New York Times* bestselling author and co-creator of the Pendergast series

"A heart-pounding adventure that will keep readers turning the pages, effectively bridging the gap between the gritty traditional thriller protagonist and the larger-than-life comic book superhero." —*New York Journal of Books* on *Black Scorpion*

But angry, greedy men have their eyes on the rich ranchlands—and the beautiful women who live there.

The Light of Western Stars

Searching for her brother Al, Maddie Hammond gets off the transcontinental railroad in the middle of the night, in a New Mexico town full of drunken, dangerous men. A hard-bitten cowboy drags her before a priest and insists that they be married—until he hears her name. Praise for *The Risen Empire*

"Westerfeld's exceptionally smart and empathetic novel, the first of two in a series, confirms the buzz that space opera is one of the most exciting branches of current SF.... Keeping the reader constantly off-balance, Westerfeld skillfully integrates extreme technologies with human characters."

—Publishers Weekly, Starred Review

"Proof that space opera can be as complex and sophisticated as any other form of literature. Doc Smith would barely recognize it."

—Mike Resnick

"In Westerfeld's hands, science fiction's cutting edge is wield..."
