Margaret Weis and co-author Robert Krammes bring the enthralling Dragon Brigade trilogy to a thrilling conclusion in this sweeping novel of worldwide war and personal redemption.

Five hundred years ago, a clan of rebels was banished to the bottom of the enchanted world of Aeronne; ever since, they have sought revenge, and now they are waging all-out war on the rest of humanity. The attack of their deadly "contramagic" power will create a magical armageddon.

In an effort to prevent further death, Captain Stephano de Guichen leads the Dragon Brigade, taking the fight to the Bottom. But those Above realize their only possible defense lies in the heretical secrets of contramagic.

L. E. Modesitt, Jr.

Archform: Beauty

The new SF novel from the bestselling author of the Saga of Recluce

It's always a special treat when this bestselling fantasy writer turns his hand to SF, and *Archform: Beauty* is no exception. Five people tell their stories and the many parts become one story of justice and truth in a world beset by technological challenges, drowning in apathy, and attacked by devious evil. Four centuries in the future, nanomachines watch the health of the wealthy and manufacture food and gadgets for everybody, but social problems persist. The stories of five disparate characters overlap, interchange, combine, and build into a tour de force of storytelling.

KEY SELLING POINTS:

- * Modesitt is a strong promoter, regularly touring on our behalf

"The world-building is as solid as a rock. Altogether, the reappearance of these novels can only enhance the author's high reputation for intelligent storytelling."

--Publishers Weekly on *Empire & Ecolitan*

"L. E. Modesitt, Jr...is more than an adventure writer; he is also quite a thoughtful fellow, and I found his musings on the need for responsibility in a high-tech society the more fascinating aspect of this novel."

--Analog on *Gravity Dreams*

"This is science fiction at its best: imaginative, provocative and on the grandest of scales--the human heart."

--Roman...
