Blood of Tyrants

A gripping political thriller exploring the devastating effects that unlimited political funding, if permitted, could produce

Backed by a secretive Super PAC, Richard Wilkes, an old money Virginia businessman, upsets the incumbent to win the Presidency. His term begins smoothly enough—until ISIS launches horrific terrorist attacks on American soil.

In way over his head, the President refuses to take action, paving the way for the terrorists to use a stolen Pakistani nuke to incinerate almost a million Americans. Fed up with his incompetence, multi-billionaire Walter Jefferson leads several high ranking military leaders and a band of patriots in a bloody coup.

After eliminating President Wilkes and almost everyone on the Presidential succession list, Jefferson proclaims himself Chancellor and begins moving “undesirables” into internment camps. He then orders the military to invade Canada and Mexico in a desperate attempt to wipe out the ISIS contingents hiding there, and to build a buffer zone around the country. There are catastrophic losses on all sides. There’s only one hope for the United States now: the last survivor on the Presidential succession list, the Secretary of State.

Zane Grey's most enduring classic—the book that invented the myth of the American West. In the little village of Cottonwoods, Utah, Mormon rancher Jane Withersteen endures persecution, religious zealots, and cattle rustlers trying to prey on her land. Aided by Lassiter, the famous gunman, Jane and her friends must escape the clutches of her most dangerous enemies.

The Rainbow Trail

John Shefford rode into Utah in search of a new life, and when he met Fay Larkin, a beautiful woman charged with murder, he knew he had found it. Breaking her out of jail was the easy part. A reclusive, terminally ill billionaire hires Laura to research the possibility that such a cure exists. The Dinosaur Knights

"It's like a cross between *Jurassic Park* and *Game of Thrones*."

--George R. R. Martin

Paradise is a sprawling, diverse, often cruel world. Armored knights ride dinosaurs to battle legions of war-trained Triceratops and their upstart peasant crews.

Karyl Bogomirsky is one such knight who has chosen to rally those who seek a way from the path of war and madness. The fact that the Empire has announced a religious crusade against his peaceful kingdom doesn't help him one bit.

Things really turn to mud when the dreaded Grey Angels, fabled ancient weapons of the Gods who created Paradise in the first place come on the scene after almost a millennia. Everyone thought that they were fables used to scare children. They are very much real.

And they have come to rid the world of sin...including all the humans who manifest those vices.

KEY SELLING POINTS:

- * FUN AND ORIGINAL CONCEPT: Knights riding dinosaurs! An epic fantasy set on a planet called Paradise where the primary beasts of burden and battle are dinosaurs
- * WELL-CONNECTED AUTHOR: Victor Milán is one of the co-creators of and a contributor to George R. R. Martin's Wild Card books--Martin gave him an amazing quote on the first book
- * POPULAR SUBJECT: Dinosaurs have been and will always be hot (*Jurassic World* had the second biggest opening in movie history). Add to that, we have knights

Praise for *The Dinosaur Lords*

"Politics and panache, style and sex--and more terrible lizards than you can shake a saber at...a rich and sprawling read that hooks you at the first page and keeps you guessing, gasping, and cheering all the way to the last."

A plantation in a flourishing British colony on Mars is home to Arabella Ashby, a young woman who is perfectly content growing up in the untamed frontier. That is something her mother plans to remedy with a move to an exotic world Arabella has never seen: London, England.

However, when events transpire that threaten her home on Mars, Arabella decides that sometimes doing the right thing is far more important than behaving as expected. She disguises herself as a boy and joins the crew of the *Diana*, a ship serving the Mars Trading Company, where she meets a mysterious captain who is intrigued by her knack with clockwork creations. Now Arabella just has to weather the naval war currently raging between Britain and France, learn how to sail, and deal with a mutinous crew...if she hopes to save her family remaining on Mars.
