Stygian

Sherrilyn Kenyon

The newest Dark-Hunter novel from #1 *NYT* bestseller Sherrilyn Kenyon, *Stygian* is the follow-up to her wildly successful novel *Styxx*, telling the story of Urian—*Styxx*'s son

Born before man recorded time, I lived for thousands of years believing myself to be something I'm not. Someone I'm not.

Lied to and betrayed by gods, Daimons, and Dark-Hunters, I've struggled to find my way in a world where I've been cursed since the moment I was prematurely ripped from my mother and planted into the womb of an innocent woman who thought me her son.

Trained as a slayer and predator, I learned to fit in and stay low. To become a tool for evil. Until I was sent to kill the one woman I couldn't. My hesitation cost her her life.

Or so I thought. In an act of betrayal that makes all the others pale in comparison, I've learned that this world is an illusion and that my Phoebe still lives.

Now I will have to travel into the very pits of Hades to try to save her, even as everyone around me attempts to steal what little soul I have left. There's only one person at my back and I'm not sure I can trust her either, for she was born of an enemy race. Yet sometimes the road to redemption is one that sings us to our very core. And if I fail to find the answers I need to save Phoebe, more than just my wife will die.

We will lose the world. Both human and Daimon.

New York Times bestselling author SHERRILYN KENYON is a regular in the #1 spot. This extraordinary bestseller continues to top every genre in which she writes. More than 60 million copies of her books are in print in more than one hundred countries. Her current series include *Deadman's Cross*, *The Dark-Hunters*, *The League*, and *Chronicles of Nick*. Her *Chronicles of Nick* and *Dark-Hunter* series are soon to be major motion pictures.

Autonomous

Annalee Newitz

The highly anticipated science fiction debut from a well-connected science/SF journalist and founder of *io9*, exploring themes of technology and culture in an accessible style

Autonomous features a rakish pharmaceutical pirate named Jack who traverses the world in her own submarine. A notorious anti-patent scientist who has styled herself as a Robin Hood-style heroine fighting to bring cheap drugs to the poor, Jack's latest drug is leaving a trail of lethal overdoses across what used to be North America. The drug compels people to become addicted to their work.

On Jack's trail are an unlikely pair: an emotionally shut-down military agent and his partner, Paladin, a military robot, who fall in love against all expectations. *Autonomous* alternates between the activities of Jack and her co-conspirators, and Joe and Paladin, as they all race to stop a bizarre drug epidemic that is tearing apart lives, causing trains to crash, and flooding New York City.

The characters in *Autonomous* are dealing with a fundamental question: Is freedom possible in a culture where everything, even people, can be owned?

PRAISE

"Autonomous is to biotech and AI what *Neuromancer* was to the Internet."—Neal Stephenson

Through Darkest Europe

Harry Turtledove

From the modern master of alternate history, a novel of a world dominated by a prosperous and democratic Middle East—and under threat from the world's worst trouble spot

Senior investigator Khalid al-Zarzisi is a modern man, a product of the unsurpassed educational systems of North Africa and the Middle East. Liberal, tolerant, and above all rich, the countries and cultures of North Africa and the Middle East have dominated the globe for centuries, from the Far East to the young nations of the Sunset Lands.

But one backwater area has festered for decades: Europe, whose despots and monarchs can barely contain the simmering anger of their people. From Ireland to Scandinavia, Italy to Spain, European fundamentalists have carried out assassinations, hijackings, and bombings on their own soil and elsewhere. Extremist fundamentalist leaders have begun calling for a “crusade,” an obscure term from the mists of European history.

Khalid has been sent to Rome, ground zero of backwater discontent. He and his partner Dawud have been tasked with figuring out how to protect the tinpot Grand Duke, the impoverished Pope, and the overall status quo, before European instability starts overflowing into the First World.

Then the bombs start to go off.

The Android's Dream

John Scalzi

From *New York Times* bestseller and Hugo Award-winner, John Scalzi, a trade paperback repackaging of his wild-and-woolly caper novel of interstellar diplomacy—now with a new cover and intro!

A human diplomat creates an interstellar incident when he kills an alien diplomat in a most unusual way. To avoid war, Earth's government must find an equally unusual object: a type of sheep used in the alien race's coronation ceremony.

To find the sheep, the government turns to Harry Creek, ex-cop, war hero, and hacker extraordinaire, who, with the help of a childhood friend turned artificial intelligence, scours the earth for the rare creature.

Others have plans for the sheep as well. The military. Adherents of a secret religion based on the writings of a twenty-first century SF author. And alien races eager to start a revolution on their home world and a war on Earth.

To keep our planet from being enslaved, Harry will have to pull off a grand diplomatic coup. There's only one chance to get it right, to save the life of the sheep—and to protect the future of humanity.

Dalinar and the Alethi forces take refuge in the legendary tower city of Urithiru, once home to the lost Knights Radiant. There, he and the newly raised Radiants must explore the mysteries of the legendary city to understand and train their powers. In doing so they must also face long-lost truths that could upend everything they think they know.

Humanity faces a new Desolation, and with the return of the Voidbringers, an enemy as great in number as in their thirst for vengeance, the world of Roshar will never be the same. Unless the nations unite behind Dalinar, putting aside his blood-soaked past, even the restoration of the Knights Radiant will not prevent the end of civilization.

The Widening Gyre

John Scalzi

The second novel of a space-opera sequence set in and intergalactic Empire on the verge of collapse by Hugo Award-winning, *New York Times* bestselling author John Scalzi

The second, thrilling novel in the bestselling Interdependency series, from Hugo Award-winning author John Scalzi.

The Interdependency, humanity's interstellar empire, is on the verge of collapse. The Flow, the extra-dimensional conduit that makes travel between the stars possible, is disappearing, leaving entire star systems stranded. When it goes, human civilization may go with it—unless desperate measures can be taken.

Emperox Grayland II, the leader of the Interdependency, is ready to take those measures to help ensure the survival of billions. But nothing is ever that easy. Arrayed before her are those who believe the collapse of the Flow is a myth—or at the very least, an opportunity that can allow them to ascend to power.

While Grayland prepares for disaster, others are preparing for a civil war, a war that will take place in the halls of power, the markets of business, and the altars of worship as much as it will take place between spaceships and battlefields. The Emperox and her allies are smart and resourceful, but so are her enemies. Nothing about this power struggle will be simple or easy... and all of humanity will be caught in its widening gyre.

JOHN SCALZI is one of the most popular SF authors to emerge in the last decade. His debut *Old Man's War* won him the John W. Campbell Award for Best New Writer. Windwitch

A Witchlands Novel

Susan Dennard

The second novel in the *New York Times* bestselling Witchlands series, an epic fantasy adventure hailed by Alexandra Bracken as “a world you will want to inhabit forever.”

Sometimes our enemies are also our only allies...

After an explosion destroys his ship, the world believes Prince Merik, Windwitch, is dead. Scarred yet alive, Merik is determined to prove his sister’s treachery. Upon reaching the royal capital, crowded with refugees, he haunts the streets, fighting for the weak—which leads to whispers of a disfigured demigod, the Fury, who brings justice to the oppressed.

When the Bloodwitch Aeduan discovers a bounty on Iseult, he makes sure to be the first to find her—yet in a surprise twist, Iseult offers him a deal. She will return money stolen from him, if he locates Safi. Now they must work together to cross the Witchlands, while constantly wondering, who will betray whom first?

After a surprise attack and shipwreck, Safi and the Empress of Marstok barely escape with their lives. Alone in a land of pirates, every moment balances on a knife’s edge—especially when the pirates’ next move could unleash war upon the Witchlands.

SUSAN DENNARD is the author of the *New York Times* bestselling Witchlands series as well as the *Something Strange and Deadly* series. She has come a long way from small-town Georgia. Working in marine biology, she got to travel the world—six out of seven continents (she’ll get to Asia one of these days!)—before she settled down as a full-time novelist and writing instructor. When not writing, she can be found hiking with her dogs, slaying darkspawn on her Xbox, or earning bruises at the dojo.

Since she was a child, divine empress O Shizuka has believed she was an untouchable god. When her uncle, ruler of the Hokkaran Empire, sends her on a suicide mission as a leader of the Imperial Army, the horrors of war cause her to question everything she knows.

Thousands of miles away, the exiled and cursed warrior Barsalyya Shefali undergoes trials even the most superstitious would not believe in order to return to Hokkaran court and claim her rightful place next to O Shizuka.

As the distance between disgraced empress and blighted warrior narrows, a familiar demonic force grows closer to the heart of the empire. Will the two fallen warriors be able to protect their home?

James Alan Gardner

The eagerly awaited sequel to *All Those Explosions Were Someone Else's Fault* by an award-winning author.

Now Jools and her friends (who haven't even picked out a name for their superhero team yet) get caught up in the hunt for a Mad Genius's misplaced super-weapon. But when Jools falls in with a modern-day Robin Hood and his band of super-powered Merry Men, she finds it hard to sort out the Good Guys from the Bad Guys—and to figure out which side she truly belong on.

The Long Price Quartet

Daniel Abraham

For the first time in one volume, the unforgettable epic fantasy series by Daniel Abraham, coauthor of The Expanse series

In a world of ancient empires and immortal magics, one man stands at the crossroads of history.

The aggressively expansionist Galt empire has already conquered lands across a huge continent. But the cities of the Khaiem resist Galt's power with the *andat*, creatures of magic with godlike powers. But magic and treacherous politics have brought a bitter harvest of violence and sorrow.

Otah Machi, caught between ancient wonders and a modern empire, has survived more than most men endure in two lifetimes. He is the fulcrum around which the wheels of epic history rotate through achingly poignant cycles of life and death, love and betrayal.

Now, when the world seems utterly lost, all depends on Otah, and the lost loves and found family he has desperately hoped to protect from the tragedy that beckons. If they can summon the courage and power to forgive and resist darkness, all their hopes could be salvaged—along with their world.

Slaves of the Switchboard of Doom

A Novel of Retropolis

Bradley W. Schenck

Rockets. Robots. Death Rays. Mad Science. The Future That Never Was is back in this fully illustrated science fiction comedy novel

If Fritz Lang's *Metropolis* somehow mated with *Futurama*, their mutant offspring might well be *Slaves of the Switchboard of Doom*. Inspired by the future imagined in the 1939 World's Fair, this hilarious, beautifully illustrated adventure by writer and artist Bradley W. Schenck is utterly unlike anything else in science fiction: a gonzo, totally bonkers, gut-busting look at the World of Tomorrow, populated with dashing, bubble-helmeted heroes, faithful robot sidekicks, mad scientists, plucky rocket engineers, sassy switchboard operators, space pirates, and much, much more—enhanced throughout by two dozen astonishing illustrations.

Nothing to Devour

Motherless Child #3

Glen Hirshberg

A lyrical horror novel of obsession, never-ending hatred and fear, and a mother's undying love. An *undying* mother's undying love

Cruel yet kind, talented yet terrifying, hypnotically compelling yet repellent, the vampire "mother," Aunt Sally, who was born a slave and died only to rise again, created a horde of monsters. When some humans discovered that vampires were real, she incinerated her flock to save herself.

Now Aunt Sally is determined to find and destroy her enemies.

Jess lost her daughter to one of Aunt Sally's creatures. She and others touched by Aunt Sally's evil band together in search of a normal life, but that is not to be.

One harrowing day, Aunt Sally arrives on their tiny island home. Blood and death, triumph and betrayal follow in her wake. Even a human can be a monster when the time is right. And even a monster can feel love and loss.

Glen Hirshberg's critically acclaimed trilogy comes to a shattering conclusion that proves that this International Horror Guild and Shirley Jackson Award winner understands the true depths and heights of this thing called life.

Terran Tomorrow

Nancy Kress

The final book in the thrilling hard-SF first-contact trilogy based on the Nebula Award-winning novella *Yesterday's Kin*

The diplomatic mission from Earth to World ended in disaster, as the Earth's scientists discovered that the Worlders were not the scientifically advanced culture they believed. Though they brought a limited quantity of the vaccine against the deadly spore cloud, there was no way to make enough to vaccinate more than a few dozen, and the Earth scientists and surviving diplomats fled back to Earth.

Once home, after the twenty-eight-year gap caused by their transit through space, they find an Earth changed almost beyond recognition. In the aftermath of the spore cloud plague, the human race has been reduced to a few million isolated survivors. The knowledge brought back by Marianne Jenner and her staff may not be enough to turn the tide of ongoing biological warfare.

Willful Child: The Search for Spark

Steven Erikson

A new installment of the devil-may-care, near calamitous, and downright chaotic adventures through the infinite vastness of interstellar space

The continuing adventures of the starship A.S.F. *Willful Child*. Its ongoing mission: to seek out strange new worlds on which to plant the Terran flag, to subjugate and, if necessary, obliterate new life-forms.

We join the not terribly bright but exceedingly cocksure Captain Hadrian Sawback and his motley crew on board the starship *Willful Child* for a series of adventures through “the infinite vastness of interstellar space.”

The *New York Times* bestselling author of the acclaimed Malazan Book of the Fallen series has taken his lifelong passion for *Star Trek* and transformed it into a smart, inventive, and hugely entertaining spoof on the whole overblown mankind-exploring-space-for-the-good-of-all-species-but-trashing-stuff-with-a-lot-of-high-tech-gadgets-along-the-way adventure. The result is an SF novel that deftly parodies the genre while also paying fond homage to it.

PRAISE

“*Willful Child* is a love letter to *Star Trek* and its fans—a pitch-perfect tour de force.”—Robert J. Sawyer, Hugo Award-winning author of *Red Planet Blues*

“Cleverly written and brilliantly funny with a charming, handsome—and self-absorbed—hero at the center of the story.... With an imaginative plot, plenty of action and a lively pace, *Willful Child* and Erikson do not disappoint.”—*RT Book Reviews*

“*Willful Child* is a gloriously snarky send-up of *Star Trek*.”—*San Jose Mercury News*

STEVEN ERIKSON is an archaeologist and anthropologist and a graduate of the Iowa Writers' Workshop. His *New York Times* bestselling Malazan Book of the Fallen series met with international acclaim and established him as a major voice in the world of fantasy fiction.

Leaving Golgotha in search of her daughter, Constance, who has been taken from her, Maude travels to Charleston, South Carolina, only to find herself caught in the middle of a secret war between the Daughters of Lilith and their ancestral enemies, the monstrous Sons of Typhon. Connolly continues the hilarious adventures of teen witch Camellia and her mother, wicked witch Sarmine, in this latest installment to the Andre Norton Award-nominated "Seriously Wicked" series

Cam has resigned herself to being a witch. Sort of. She's willing to do small things, like magically help her boyfriend Devon get over his stage fright. But tangling with other witches is not on her wishlist. Joining her mother's wicked witch coven is right out.

New acquaintance Poppy Jones is a Type A, A+ Student of True Witchery. She's got all the answers, and she's delighted to tangle with a bunch of wicked witches. She doesn't need any reluctant witch getting in her way, especially one who knows less than a dozen spells, and has zero plans for witch college.

Then a coven meeting goes drastically awry. A hex is taking down all thirteen members of the coven, one by one—putting both girls' mothers in jeopardy. Now the two teens are going to have to learn to work together, while simultaneously juggling werewolf puppies, celebrity demons, thirteen nasty hexes, and even nastier witches. They may have to go through hell and high water to save their mothers—but they also might find a new friendship along the way.

The ramifications of *Shroud of Eternity* extends throughout all of the Old World as familiar allies, dangerous magic, and creatures created by twisted sorcery all work at cross purposes to either save or destroy Ildakar in Terry Goodkind's *Seige of Stone*.

The Sorceress Nicci, the Wizard Nathan Rahl, and the young swordsman Bannon remain in the legendary city of Ildakar after a great internal revolt has freed the slaves and brought down the powerful wizards council. But as he fled the city, capricious Wizard Commander Maxim dissolved the petrification spell that had turned to stone the invading army of General Utros fifteen centuries earlier. Now hundreds of thousands of half-stone soldiers from the ancient past have awakened, led by one of the greatest enemy commanders in history.

Nicci, Nathan, and Bannon have to help Ildakar survive this unbreakable siege, using all the magical defenses of the legendary city. Even as General Utros holds Ildakar hostage and also unleashes his incredible army on the unsuspecting Old World, an equally powerful threat arises out in the sea.

Nicci knows the battle won't remain in the city; if she can't stop this threat, two invincible armies can sweep across the Old World and destroy D'Hara itself.

The land is at the mercy of a paranoid king who has become unfit to rule. As rebellion sparks in a conquered duchy, the final bond holding back the Banished breaks, unleashing their nightmarish evil on the innocents of the kingdom.

In his final battle against the Banished, Durand comes face to face with the whispering darkness responsible for it all—the king in cobwebs.

When a group of farmers decide to form a new settlement further away, the Bosses retaliate by threatening to crush the “rebellion.”

Luz understands what it means to have no choices. Her father is a Boss and he has ruled over her life with the same iron fist. Luz wonders what it might be like to make her own choices. To be free to choose her own destiny.

R. S. Belcher

The Brotherhood of the Wheel return to explore the haunted byways and truck stops of the U.S. Interstate Highway System

Jimmie Aussapile, Lovina Marcou and Heck Sinclair are members of a secret society dedicated to protecting those who travel America's highways from the monsters, both supernatural and mundane, that lurk in the darkness just beyond your headlights. They are the Brotherhood of the Wheel.

At home in Lenoir, North Carolina, Jimmie and his squire Heck find themselves drawn into an all-out war between two competing biker gangs. One is led by a rival biker in possession of new found supernatural allies and the other is an all-female werewolf pack.

Meanwhile, Lovina is drawn into a missing-person case that leads to a Pennsylvania trailer park seemingly haunted by killer clowns.

One way or another peace must be maintained and the many roads of America must be protected. But it might just cost the Brotherhood their souls if they aren't careful.
